Intelligent Enterprise James Brian Quinn, 1992-09-14 In this penetrating study of how knowledge based services and technology are revolutionizing the economy

and every corporate strategy James Brian Quinn argues that the successful companies of the 90 s whether in manufacturing or services will derive their competitive edge not from ephemerally superior products but from a deep understanding of a few highly developed knowledge and service based core competencies Rarely will owning the largest raw materials resource manufacturing plants equipment bases or integrated facilities provide a maintainable competitive edge for major companies Such physical properties are too easily cloned or bypassed From now on Quinn documents intelligent enterprises will derive sustainable advantage from knowledge and service based activities that leverage intellectual assets They will increase value through technological sophistication better knowledge bases more creative customer responsiveness and the unsurpassed management of human and intellectual capital that competitors cannot reproduce Quinn analyzes the technological and economic forces that make such strategies essential He shows in detail how to create and leverage knowledge and service based core competencies for maximum focus and effectiveness Managers Quinn asserts must define each value creating activity as a knowledge based service and determine whether or not they can perform that service be it research design inventory control accounting distribution or advertising better than anyone else in the world Using examples from companies such as Merck Honda Apple Boeing and Wal Mart Quinn describes how forward looking companies can best perform needed analyses and implement strategies around selected core competencies By eliminating or outsourcing less important functions to superior outside vendors firms become more responsive decentralized and lean They become the intelligent enterprises of the 1990s leveraging human and capital resources much more than other firms They may also take on radically new organizational forms become starburst inverted infinitely flat or spiders web configurations By designing and benchmarking their knowledge and service based activities to be best in world managers can obliterate overhead costs smash bureaucracies motivate personnel and create greater value for customers and shareholders alike **BASICS OF MARKETING (English)**
