Eduardo E. Mariscotti, 2025-04-24 The context of business has been changing for companies in recent years and following numerous corporate and accounting scandals many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law Because of the existence of these new regulations the level of control the severity of sanctions by governments and the amount of fines for noncompliance have increased dramatically In parallel with the technological revolution in communications business management has become more transparent and any negative event is uploaded to social networks and shared with an indeterminate number of people This change in the regulatory sanctioning and technological context has forced large companies to rethink risks investments and budgets to deal with this more complex environment To transition to this change some companies have included ethics and compliance programs in their corporate agenda along with marketing and sales plans strategies growth targets investment plans and or talent acquisition While each industry has its particular risks in this book the author describes the essential elements that any effective ethics and compliance program should contain This book is a source of information that connects yesterday with today The author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and compliance programs to protect their organizations and themselves This book covers theories of ethics but with an eye focused on practical application Risks ethics and compliance are analyzed with an overall vision connected to the reality of business life without getting bogged down in abstract thinking or technical and regulatory details Ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations Thus due to the importance of risk management in the business world and the necessary involvement of the CEO and the board of directors it seems

KitKat Growing up I have always been a fan of books that contain messages and stories that can relate to real life situations This definitely covered both of those and more There were parts where I wanted to curl up with a box of tissues and keep reading and then others I was too caught up in the book I just couldn't put it down

Reviewer Nicole This is one of the best books that I've read in a long time It was a page turner a thriller from page one until the very end

Warning This series is not for those looking for a light easy read It is filled with rough language sexual tension and steamy hot romantic suspense
