

Accrue Purchase Expense on Procurement Categories in Microsoft Dynamics AX 2012

Most of you probably know how to set up Microsoft Dynamics AX 2012 to post an entry at time of purchase receipt for an inventory item. But did you know that if you want the same purchase receipt entry when using a procurement category, the setup is different?

The first step you need to do to accomplish this is to setup an Organizational Hierarchy to establish which parts of the organization will use the accrual process on purchase receipts. Once that is set up, you will need to create a purchasing policy.

1. Navigate to Procurement and Sourcing → Setup → Policies → Purchasing policies. Before creating a new policy, go to Parameters. On the policy rule parameters, use the Add button to choose the organizational hierarchy you just created.

The screenshot shows the Microsoft Dynamics AX 2012 interface. The top navigation pane shows the path: Procurement and Sourcing → Setup → Policies → Purchasing policies. The main window is titled 'Policy parameters (X)' and has a 'Parameters' tab selected. The 'Parameters' tab contains a table with columns: Name, Description, and Active. The table is currently empty. Below the table, there are two sections: 'Organizational Hierarchy' and 'Order of precedence'. The 'Organizational Hierarchy' section has a list box containing 'Companies' and an 'Add' button highlighted in yellow. The 'Order of precedence' section has a list box containing 'Companies' and an 'Add' button. The 'Add' button in the 'Organizational Hierarchy' section is highlighted in yellow.

Behavioral Science & Policy: Volume 5, Issue 1 Craig R. Fox,Sim B. Sitkin,2020-02-11

The success of nearly all public and private sector policies hinges on the behavior of individuals groups and organizations Today such behaviors are better understood than ever thanks to a growing body of practical behavioral science research However policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies The pages of this journal will become a meeting ground a place where scientists and non scientists can encounter clearly described behavioral research that can be put into action By design the scope of Behavioral Science Policy

is broad with topics spanning health care financial decisionmaking energy and the environment education and culture justice and ethics and work place practices Contributions will be made by researchers with expertise in psychology sociology law behavioral economics organization science decision science and marketing The journal is a key offering of the Behavioral Science Policy Association in partnership with the Brookings Institution The mission of BSPA is to foster dialog between social scientists policymakers and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest BSPA does not advance a particular agenda or political perspective
