Aham-Okoro, 2017-06-05 Gender Migration and Development in Africa Igbo Women in the Diaspora and Community Development in Southeastern Nigeria provides a unique approach to the study of the role of Igbo women in the diaspora to community development in Igboland Utilizing primary sources specifically migration stories of women and the groups they form in the United States and other parts of the world the book highlights the dynamism in the zeal to give back to their communities of origin in Igboland The book seeks to affirm the propensity of Igbo women to evolve through personal efforts and formation of social groups to extend humanitarian services to underprivileged individuals and societies in Igboland Through several community development programs they have provided needed medical and educational supplies hospital equipment supplies and sponsored several medical missions in different parts of the Igboland This book further counters the previously understudied role of women in development Through a comprehensive documentation of the various programs and projects completed by the groups and individual charities readers and policy makers will be inspired to appreciate the efforts of the various groups and extend needed support and assistance to the groups The findings in the book reveal the increasing shift from the brain drain concept to brain circulation and networking within the Igbo women community They are positively utilizing the skills and resources acquired from their host communities to engage in the development processes through remittances and social development projects The study reinforces the trends and ideas that the improvement of African societies may well depend on the contributions of Africans outside the continent especially women *Dynamic development, shifting demographics and changing diets* Food and Agriculture Organization of the United Nations, International Fund for Agricultural Development, 2019-04-12 Asia and the Pacific is experiencing major demographic shifts and urbanizing rapidly E agriculture technologies remote sensing drones sensors are emerging with potentially profound implications for the entire food system and management of the natural resource base Structural transformation of the economy has also changed the nature of the food security problem Earlier many governments thought that producing more staple food was sufficient to improve food security However today s economy increasingly based on human capital and less on physical strength requires that policies and programmes promote healthy diets for healthy people This need for improved nutrition will require shifts in agricultural production and trade patterns Solving the malnutrition problem in urban

areas will also require different solutions than in rural areas due to the difference in urban and rural food environments In line with the structural transformation of the economy farm households also increasingly rely on non farm income to support their livelihoods and risk management strategies which has implications for the uptake of new technologies The demographic shifts urbanization and structural changes in the economy coupled with climate change have made the food security and nutrition problem more complex than it was in the past Solutions require input from different stakeholders both public and private as well as a range of government ministries including Health Finance Education Environment Trade and Social Welfare in addition to Agriculture

Routledge Handbook of Diaspora Studies Robin Cohen,Carolyn Fischer,2018-09-03 The word diaspora has leapt from its previously confined use mainly concerned with the dispersion of Jews Greeks Armenians and Africans away from their natal homelands to cover the cases of many other ethnic groups nationalities and religions But this horizontal scattering of the word to cover the mobility of many groups to many destinations has been paralleled also by vertical leaps with the word diaspora being deployed to cover more and more phenomena and serve more and more objectives of different actors With sections on debating the concept complexity home and home making connections and critiques the Routledge Handbook of Diaspora Studies is likely to remain an authoritative reference for some time Each contribution includes a targeted list of references for further reading The editors have carefully blended established scholars of diaspora with younger scholars looking at how diasporas are constructed from below The adoption of a variety of conceptual perspectives allows for generalization contrasts and comparisons between cases In this exciting and authoritative collection over 40 scholars from many countries have explored the evolving use of the concept of diaspora its possibilities as well as its limitations This Handbook will be indispensable for students undertaking essays debates and dissertations in the field
