New Challenges in Immigration Theory Crispino Akakpo, Patti Lenard, 2017-10-02 As far as immigration theory is concerned the attempt to reconcile concern for all persons with the reality of state boundaries and exclusionary policies has proved difficult within the limits of normative liberal political philosophy However the realpolitik of migration in today s environment forces a major paradigm shift We must move beyond standard debates between those who argue for more open borders and those who argue for more closed borders This book aims to show that a realistic utopia of political theory of immigration is possible but argues that to do so we must focus on expanding the boundaries of what are familiar normative positions in political theory Theorists must better inform themselves of the concrete challenges facing migration policies statelessness brain drain migrant rights asylum policies migrant detention practices climate refugees etc We must ask what is the best we can and ought to wish for in the face of these difficult migration challenges Blake Carens and Cole offer pieces that outline the major normative questions in the political theory of immigration The positions these scholars outline are challenged by the pieces contributed by Lister Ottonelli Torresi Sager and Silverman These latter pieces
