Migration Mediterranean Mechanisms International Cooperation:

Migration in the Mediterranean Francesca Ippolito, Seline Trevisanut, 2015 Mediterranean states have developed various cooperation mechanisms in order to cope with the issues that arise from migration. This book critically analyses how institutional actors act and interact on the international scene in the control and management of migration in the Mediterranean. It highlights how even though the involvement of universal international organisations guarantees a certain balance in setting the goals of cooperation mechanisms and buttresses a certain coherence of the actions, the protection of migrants' fundamental rights is still an objective as opposed to a reality and security imperatives and trends still prevail in the aftermath of the 2011 Arab Spring. **Die EUNAVFOR MED Operation Sophia zur Bekämpfung des**

Migrantenschmuggels auf Hoher See im Mittelmeer Karolina Vogel, 2019-04-17 Im Jahr 2015 erreichten über eine Million Menschen Europa über den Seeweg. Mit der großen Zahl an Menschen, die ihre Heimatländer über das Mittelmeer verlassen, steigt die Zahl der Schlepperbanden, die aus dieser Situation Profit schlagen möchten. Die Europäische Union hat im gleichen Jahr mit einer multinationalen Militäroperation reagiert. Die EUNAVFOR MED Operation Sophia zur Bekämpfung des Migrantenschmuggels auf Hoher See im Mittelmeer hat seitdem große mediale Aufmerksamkeit erregt. Schon im Vorfeld des Einsatzes wurden Zweifel an dessen Rechtmäßigkeit vorgebracht. Durfte der Sicherheitsrat der Vereinten Nationen die Staatengemeinschaft auf Grundlage von Art. 39 UN Charta zu einer Militäroperation ermächtigen? Hält die Militäroperation internationale Menschenrechtsstandards ein und gelten diese extra-territorial auf Hoher See? Darf sich die Bundeswehr an einem polizeilich geprägten Einsatz beteiligen? Müssen sich die deutschen Streitkräfte auf Hoher See an Grundrechte halten? Die Autorin untersucht diese und weitere Fragen zur Rechtmäßigkeit der Operation Sophia auf den drei Ebenen des Völkerrechts, Europa und Verfassungsrechts. Im Hauptteil der Arbeit werden vor diesem Hintergrund sowohl die Voraussetzungen für das Einleiten der Militäroperation als auch die rechtlichen Schranken während des Einsatzes aufgezeigt und analysiert. Die doppelt codierte Grenze und der Nationalstaat in Europa Isabel Hilpert, 2020-03-04 Für die moderne Nationalstaatlichkeit gilt so einfach wie scheinbar unveränderbar: Nationalstaaten haben Staatsgrenzen. In den letzten Jahrzehnten hat sich in der Europäischen Union allerdings ein Grenzregime herausgebildet, das den Fortbestand dieser exklusiven Verbindung grundsätzlich infrage stellt. Die doppelte Codierung der Grenzen steht im Zentrum dieser Entwicklung. Was bedeutet die doppelt codierte Grenze nun für den Nationalstaat und das Verständnis von nationaler Souveränität? Das Buch beantwortet diese Frage über die Untersuchung der Perspektive des Nationalstaates auf das europäische Grenzregime und integriert zentrale empirische Befunde in theoretische Analysen über die Dynamik zwischen Zentrum und Peripherie der Europäischen Union. Als Fallbeispiel dient die Republik Italien. *Bilateral Relations in the Mediterranean* Francesca Ippolito, Gianluca Borzoni, Federico Casolari, 2020-08-28 This timely book assesses national and supranational bilateral approaches to dealing with the rising tide of migration into the European Union via the Mediterranean Sea. International law and EU migration law

specialists critically assess the legal tools adopted to engage with the refugee crisis While the EU works to develop a unified approach to Mediterranean transit and origin countries the authors argue that a crucial role should be accorded to individual states in finding a solution to this complex and sensitive situation **The EU's External Governance of Migration**

Dreyer-Plum, 2020-05-11 Was ist 2015 in der sogenannten Migrationskrise passiert Wie ist die darauf anwortende Politik zu bewerten Wer sind die entscheidenden Akteure in der europäischen Grenz und Asylpolitik Und was sind die gesellschaftlichen und politischen Gründe dafür dass das Politikfeld seit den späten 1990er Jahren zunehmend auf europäischer Ebene gestaltet wird Dieses Lehrbuch liefert ausgewogene Antworten indem zum einen die Genese des Politikfeldes vor dem Hintergrund der Schengen Kooperation historisch und politisch aufgearbeitet wird Zum anderen erläutert die Autorin detailliert wie die Institutionen ihr Mandat genutzt haben und welche Standards bei der Einreise Visavergabe und in Asylverfahren laut europäischem Recht gelten Dabei werden auch die Schwachstellen beleuchtet die den andauernden Streit um die Ausrichtung der europäischen Grenz und Asylpolitik prägen **Inclusive Solidarity and Citizenship along Migratory Routes in Europe and the Americas** Helge Schwiertz, Helen Schwenken, 2021-08-19 Inclusive Solidarity and Citizenship along Migratory

Routes in Europe and the Americas links non essentialist concepts of solidarity and citizenship to migration in different empirical contexts The chapters in this edited volume analyse how civil society initiatives renegotiate societal structures in solidarity with people on the move noncitizens and racialized individuals and in doing so advance theorizing and contribute to current debates about citizenship and solidarity Focusing on solidarity among members of the so called majority society in Europe and the Americas this book offers a compendium of chapters that analyses particular practices of solidarity both material and symbolic as well as the mindsets discourses and broader societal contexts that provide the fundament of these practices As these empirical cases demonstrate the main argument of the book is that solidarity is not necessarily based on a pre established and exclusive community but that more inclusive solidarities arise through collective practices the emergence of new subjectivities and the mediation of differences Furthermore the book argues that it is analytically fruitful to associate concepts of citizenship with solidarity by proposing the concept of solidarity citizenship in order to bring into

view societal modes of relating that are constitutive of collective as well as individual subjectivities The chapters in this book were originally published as a special issue of the journal *Citizenship Studies*

Migration Law and the Externalization of Border Controls Anna Liguori, 2019-03-27 Over the last few decades both the European Union and European States have been implementing various strategies to externalize border controls with the declared intent of saving human lives and countering smuggling but with the actual end result of shifting borders circumventing international obligations and ultimately preventing access to Europe What has been principally deplored is the fact that externalizing border controls risks creating legal black holes Furthermore what is particularly worrying in the current European debate is the intensification of this practice by multiple arrangements with unsafe third countries exposing migrants and asylum seekers to serious human rights violations This book explores whether European States can succeed in shifting their responsibility onto Third States in cases of human rights violations Focusing in particular on the 2017 Italy Libya Memorandum of Understanding the book investigates the possible basis for triggering the responsibility of outsourcing States The second part of the book examines how the Italy Libya MoU is only a small part of a broader scenario exploring EU policies of externalization A brief overview of the recent decisions of the EU Court vis vis two aspects of externalization the EU Turkey statement and the issue of humanitarian visas will pave the way for the conclusions since in the author's view the current attitude of the Luxembourg Court confirms the importance of focusing on the responsibility of European States and the urgent need to investigate the possibility of bringing a claim against the outsourcing States before the Court of Strasbourg Offering a new perspective on an extremely topical subject this book will appeal to students scholars and practitioners with an interest in European Law International Law Migration and Human Rights

Postcolonial African Migration to the West Belachew Gebrewold,2024-07-04 Postcolonial African migration to the West is not only a spatial movement in search of material and physical security but also an expression of the mimetic desire for being by imitating the West or whitening oneself against the background of the dehumanizing historical legacies of slavery colonialism and Western dominance It is a flight from oneself from perceived inadequacies To migrate to the West is an expression of the desire for being not through detachment from the fascinating West but rather through adoration and imitation of its lifestyle beauty ideals and soft and hard power and by living in the West The model the West builds ubiquitous anti migrant physical and virtual fences which the imitator tries to overcome The more the model re strengthens these fences the more the imitator tries to scale them The anti migrant fences are the meeting point of the model s perceived superiority admirability and desirability on the one hand and on the other hand the imitator s inferiority complex and inner tension between the paradoxical desire for detachment from the model and its passionate imitation at the same time This book argues that African migration to the West will continue even in the absence of poverty conflicts and climate change because it is also about the mimetic desire for being
