Languages and Compilers for Parallel Computing Henry Dietz, 2025-10-31 This volume LNCS 14480 constitutes the refereed proceedings of the International Workshop LCPC 2023 in Lexington KY USA held during October 2023 The 10 full papers presented together with 3 short papers were carefully reviewed and selected from 14 submissions The conference focuses on mobile computing to big data and training of AI systems

High Performance Computing in Clouds Edson Borin, Lúcia Maria A. Drummond, Jean-Luc Gaudiot, Alba Melo, Maicon Melo Alves, Philippe Olivier Alexandre Navaux, 2023-07-05 This book brings a thorough explanation on the path needed to use cloud computing technologies to run High Performance Computing HPC applications Besides presenting the motivation behind moving HPC applications to the cloud it covers both essential and advanced issues on this topic such as deploying HPC applications and infrastructures designing cloud friendly HPC applications and optimizing a provisioned cloud infrastructure to run this family of applications Additionally this book also describes the best practices to maintain and keep running HPC applications in the cloud by employing fault tolerance techniques and avoiding resource wastage To give practical meaning to topics covered in this book it brings some case studies where HPC applications used in relevant scientific areas like Bioinformatics and Oil and Gas industry were moved to the cloud Moreover it also discusses how to train deep learning models in the cloud elucidating the key components and aspects necessary to train these models via different types of services offered by cloud providers Despite the vast bibliography about cloud computing and HPC to the best of our knowledge no existing manuscript has comprehensively covered these topics and discussed the steps methods and strategies to execute HPC applications in clouds Therefore we believe this title is useful for IT professionals and students and researchers interested in cutting edge technologies concepts and insights focusing on the use of cloud technologies to run HPC applications

Intelligent Communication, Control and Devices Adesh Kumar,Rupendra Kumar Pachauri,Ranjan Mishra,Piyush Kuchhal,2025-02-01 This book focuses on the integration of intelligent communication systems control systems and devices related to all aspects of engineering and sciences It includes high quality research papers from the 6th International Conference on Intelligent Communication Control and Devices ICICCD 2024 organized by the Department of Electrical Electronics Engineering School of Advanced Engineering at UPES Dehradun India during May 30 31 2024 The topics covered are a range of recent advances in intelligent communication intelligent control intelligent devices and sustainable technologies

Secure Smart Embedded Devices, Platforms and Applications Konstantinos Markantonakis,Keith Mayes,2013-09-14 New generations of IT users are increasingly abstracted from the underlying devices and platforms that provide and safeguard their services As a result they may have little awareness that they are critically dependent on the embedded security devices that are becoming pervasive in daily modern life Secure Smart Embedded Devices Platforms and Applications provides a broad overview of the many security and practical issues of embedded devices tokens and their operation systems platforms and main applications It also addresses a diverse range of industry government initiatives and considerations while focusing strongly on technical and practical security issues The benefits and pitfalls of developing and deploying applications that rely on embedded systems and their security functionality are presented A sufficient level of technical detail to support embedded systems is provided throughout the text although the book is quite readable for those seeking awareness through an initial overview of the topics This edited volume benefits from the contributions of industry and academic experts and helps provide a cross discipline overview of the security and practical issues for embedded systems tokens and platforms It is an ideal complement to the earlier work Smart Cards Tokens Security and Applications from the same editors

PC Mag ,2006-09-05 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology [International Conference on Advanced Intelligent Systems for Sustainable Development \(AI2SD 2024\)](#) Mostafa Ezziyyani,Janusz Kacprzyk,Valentina Emilia Balas,2025-07-11 This book provides a dynamic platform for exploring groundbreaking advancements in intelligent systems for sustainable development It offers readers access to the latest technologies and innovative solutions that address global challenges Bringing together

leading academics pioneering researchers and industry leaders fosters knowledge exchange across various fields such as health education agriculture energy and security It enables readers to gain valuable insights build strategic partnerships and contribute to shaping a more sustainable future This book bridges scientific research with practical applications and is ideal for researchers practitioners and decision makers driving progress across multiple disciplines Novel Trends in the Traveling Salesman Problem Donald Davendra, Magdalena Bialic-Davendra, 2020-12-09 The Traveling Salesman Problem TSP is widely considered one of the most intensively studied problems in computational mathematics and operations research Since its inception it has become the poster child for computational complexity research A number of problems have been transformed to a TSP problem and its application base now extends into scheduling manufacturing routing and logistics With the advent of high performance computing and advanced meta heuristics such as GPU programming and swarm based algorithms the TSP problem is positioned firmly as the go to problem for the development of the next generation of high performance intelligent heuristics This book looks to leverage some of these new paradigms for both students and researchers in this field *Hands-On GPU Computing with Python* Avimanyu Bandyopadhyay, 2019-05-14 Explore GPU enabled programmable environment for machine learning scientific applications and gaming using PuCUDA PyOpenGL and Anaconda Accelerate Key Features Understand effective synchronization strategies for faster processing using GPUs Write parallel processing scripts with PyCuda and PyOpenCL Learn to use the CUDA libraries like CuDNN for deep learning on GPUs Book Description GPUs are proving to be excellent general purpose parallel computing solutions for high performance tasks such as deep learning and scientific computing This book will be your guide to getting started with GPU computing It will start with introducing GPU computing and explain the architecture and programming models for GPUs You will learn by example how to perform GPU programming with Python and you ll look at using integrations such as PyCUDA PyOpenCL CuPy and Numba with Anaconda for various tasks such as machine learning and data mining Going further you will get to grips with GPU work flows management and deployment using modern containerization solutions Toward the end of the book you will get familiar with the principles of distributed computing for training machine learning models and enhancing efficiency and performance By the end of this book you will be able to set up a GPU ecosystem for running complex applications and data models that demand great processing capabilities and be able to efficiently manage memory to compute your application effectively and quickly What you will learn Utilize Python libraries and frameworks for GPU acceleration Set up a GPU enabled programmable machine learning environment on your system with Anaconda Deploy your machine learning system on cloud containers with illustrated examples Explore PyCUDA and PyOpenCL and compare them with platforms such as CUDA OpenCL and ROCm Perform data mining tasks with machine learning models on GPUs Extend your knowledge of GPU computing in scientific applications Who this book is for Data Scientist Machine Learning enthusiasts and professionals who wants to get started with GPU computation and perform the complex tasks with low latency
