Law and Technology Nanci K. Carr,2024-09-26 Technology is an important part of our everyday lives Whether we ask Alexa to start the coffee machine or check our phones for the traffic report we increasingly interact with technology As much as we may enjoy and rely upon technology it is not without its challenges including the inability of the law to keep pace with technological developments and

the ethical issues that arise For example tort law is impacted by technology the proliferation of drones requires a new look at the law of trespass and video Zoom meetings can impose direct liability on employers for example Social media supports an increasing share of all advertising and endorsements and is subject to regulation of which influencers are often not aware Global advertising expenditures on various internet and social media platforms also drives the need for a change in right of publicity law In the United States the right of publicity is governed by state rather than federal law so there is no uniform approach One part of the book includes a survey of the law of each US state and proposes a new federal statute Although most of the examples are drawn from the US the issues raised are fully international in scope and relevance This book will appeal to legal practitioners trying to manage new technology issues facing their clients academics teaching students how the law is changing and needs to continue to change as technology develops and teachers and researchers in business and management schools needing to address technology and governance issues The Economics of FinTech Michael

Identity American Experience Philosophical Reflections on Race Rights Capabilities and Oppression is a multidisciplinary study of oppression using the Iranian American community as its case study In current studies of oppression there is little philosophical analysis or a theoretical framework to think about race from the perspective of an immigrant community in the United States that appears to be educated and affluent Iranian Identity American Experience fills this gap Alavi discusses a theory of oppression that addresses not only the external oppression inflicted on people of color but also the everyday actions that leave them in oppressive situations The book ends with suggestions for addressing oppression both individually and as a collective and for fighting to minimize its harms *The Art of Investigation Revisited* Chelsea A.
