The New Yorker ,2005 **Never Lose a Customer Again** Joey Coleman,2018-04-03 Award winning speaker and business consultant Joey Coleman teaches audiences and companies all over the world how to turn a one time purchaser into

a lifelong customer Coleman's theory of building customer loyalty isn't about focusing on marketing or closing the sale. It's about the First 100 Days after the sale and the interactions the customer experiences. While new customers experience joy, euphoria and excitement, these feelings quickly shift to fear, doubt and uncertainty as buyer's remorse sets in. Across all industries, somewhere between 20% - 70% of newly acquired customers will stop doing business with a company within the first 100 days of being a new customer because they feel neglected in the early stages of customer onboarding. In *Never Lose a Customer Again*, Coleman offers a philosophy and methodology for dramatically increasing customer retention, and as a result, the bottom line. He identifies eight distinct emotional phases customers go through in the 100 days following a purchase. From an impulse buy at Starbucks to the thoughtful purchase of a first house, all customers have the potential to experience the eight phases of the customer journey. If you can understand and anticipate the customer's emotions, you can apply a myriad of tools and techniques in person, email, phone, mail, video and presents to cement a long and valuable relationship. Coleman's system is presented through research and case studies showing how best-in-class companies create remarkable customer experiences at each step in the customer lifecycle. In the *Acclimate* stage, customers need you to hold their hand and over-explain how to use your product or service. They're often too embarrassed to admit they're confused. Take a cue from Canadian software company PolicyMedical and their challenge of getting non-technical users to undergo a complex installation and implementation process. They turned a series of project spreadsheets and installation manuals into a beautiful puzzle customers could assemble after completing each milestone. In the *Adopt* stage, customers should be welcomed to the highest tier of tribal membership with both public and private recognitions. For instance, Sephora's VIB Rouge member welcome gift provides a metallic membership card, private recognition and a members-only shade of lipstick for public display. In the final stage, *Advocate*, loyal customers and raving fans are primed to provide powerful referrals. That's how elite entrepreneurial event MastermindTalks continues to sell out their conference year after year with zero dollars spent on marketing. By surprising their loyal fans with amazing referral bonuses and an all-expenses-paid safari, they guarantee their community will keep providing perfect referrals. Drawing on nearly two decades of consulting and keynoting, Coleman provides strategies and systems to increase customer loyalty. Applicable to companies in any industry and of any size, whether measured in employee count, revenue or total number of customers, implementing his methods regularly leads to an increase in profits of 25 - 100%. Working with well-known clients like Hyatt Hotels, Zappos and NASA, as well as mom and pop shops and solo entrepreneurs around the world, Coleman's customer retention system has produced incredible results in dozens of industries. His approach to creating remarkable customer experiences requires minimal financial investment and will be fun for owners, employees and teams to implement. This book is required reading for business owners, CEOs and managers, as well as sales and marketing teams, account managers and customer service representatives looking for easy-to-implement action steps that result in lasting change, increased profits and lifelong customer retention.
