Microfinance and Poverty Hege Gulli, 1998 **Rural Livelihoods and Diversity in Developing Countries** Frank Ellis, 2000-06-29 Rural families in developing countries make a living by engaging in diverse activities These range from farming to rural trade to migration to distant cities and even abroad This book explores the implications of rural livelihood diversity for key topics in development studies and for poverty reduction policies The livelihoods approach is gaining momentum and this is the first book to set it out in detail **Housing and Finance in Developing Countries** Kavita Datta, Gareth Jones, 2012-10-12 This book explores the linkages between formal and informal housing finance drawing upon the lessons of NGO and micro finance practices Both public and private formal finance institutions have experienced great difficulty in lending below a middle income client group and are often reluctant to lend for the purpose of housing at all This failure of formal finance to filter down to low income households and in particular to women has led various NGOs and community groups to create and adopt innovative finance programmes such as informal savings banks and credit rotating schemes The authors critically assess the impact of these schemes and evaluate links between gender housing and finance

Implementing Sustainable Development Claudia María Vargas, Phillip J. Cooper, 2024-11-25 Despite all the talk of sustainability there has not been enough action to halt or reverse the impacts of climate change Decades after the Rio Earth Summit and despite the many policies and commitments to move toward sustainable development there continues to be a serious implementation gap Implementing Sustainable Development focuses on the challenges of turning international commitments and policy promises into local action Through global examples and cases the authors examine not only the core principles but also successful and failed efforts to address the social environmental and economic dimensions of sustainable development They systematically guide readers through the technical legal economic administrative political ethical and cultural feasibility of putting sustainable development solutions in place Based on broad research Claudia María Vargas and Phillip J Cooper offer a practical and useful approach to identifying and addressing policy implementation challenges what works what doesn't and why Features of this thoroughly revised second edition include Dozens of case studies from the throughout the world An overview of the UN Sustainable Development Goals Action oriented solutions to the challenges of sustainable development Careful consideration of local and indigenous knowledge Key issues of equity equality and the

importance of community involvement **Family and Community Interventions for Children Affected by AIDS** Linda M. Richter, Julie Manegold, Riashnee Pather, 2004 This report forms part of a project funded by the W K Kellogg Foundation to implement a strategy for the care of orphans and vulnerable children in Botswana South Africa and Zimbabwe with a review of the available scientific information on interventions aimed at children families households and communities *Financial Sustainability of Micro Financing* Ambika Prasad Pati, 2009 Study conducted in Meghalaya India Microfinance Handbook Joanna Ledgerwood, 1998-12-01 The purpose of the Microfinance Handbook is to bring together in a single source guiding principles and tools that will promote sustainable microfinance and create viable institutions Transformative Policy for Poor Women Bina Fernandez, 2016-02-24 What accounts for the oft noted gap between well designed policies for women and their inadequate implementation Why do such policies often fail to benefit the poorest women How do policies address the intersecting inequalities of gender class caste ethnic identity and race What are the conditions under which policy may have transformative potential for poor women This book answers these questions and many more Presenting a new feminist framework for policy analysis that can account for policy failures Bina Fernandez argues that these failures are often predictable and that it is necessary to unpack the actual policy practices within the policy implementation gap Recognising that policy is a multiply layered contingent and politically contested discursive process the author proposes the analysis of policy through four analytical categories Constitutive Contexts Representations Practices and Consequences Within each of these four categories gender class and ethnic identity are central axes of analysis The framework is given substance through an empirical case study of an anti poverty policy in India yet the wider relevance of the framework is validated through a discussion of parallels in the policy contexts of other developing countries Transformative Policy for Poor Women provides an important and required framework to understand the gap between policy pronouncement and its praxis on the ground These features make this book an important read for both scholars and practitioners seeking to understand policy in developing country contexts Handbook of Research on Microfinancial Impacts on Women Empowerment, Poverty, and Inequality Das, Ramesh Chandra, 2018-08-17 One of the major tools of attaining proper development all around the world is complete financial inclusion such that all classes of people can secure their lifestyles through access to financial services from formal sectors Expanding access to resources and increasing self employment opportunities help reduce poverty and improve social development The Handbook of Research on Microfinancial Impacts on Women Empowerment Poverty and Inequality is an essential reference source that discusses the role of financial inclusion in gender equality as well as economic independence and self employment Featuring research on topics such as inequality collaborative economy and social responsibility this publication is ideally designed for policy makers economic researchers and academicians seeking coverage on social mobilization capital formation capacity building and pro poor economy designs **Women in Iraq** Yasmin Husein Al-Jawaheri, 2008-01-30 Since the removal of Saddam Hussein from power Iraq has seen an explosion of violence and

intimidation against women However as al Jawaheri demonstrates in this original and important book this development should not have taken people by surprise The deterioration of gender relations was in fact an overlooked by product of a decade of international sanctions Interviewing women of all different ages and backgrounds al Jawaheri examines the impact of the UN economic sanctions on family relations gender violence domestic responsibilities and employment practices She shows that by restricting womens ability to participate in education and in the labour force sanctions reinforced conservative gender roles She shows how the 2003 war and upsurge in sectarianism intensified this problem and assesses the future prospects for womens rights in Iraq

Sustainability and Poverty Outreach in Microfinance: the Sri Lankan

Experience H Amarathunga,2019-08-19 The fulfillment of the role of microfinance institutions MFIs in providing affordable financial services to the poor is associated with invariable challenges to MFIs particularly in maintaining MFIs sustainability The research work undertaken in this context to prepare author s doctoral thesis has finally culminated in a book which has comprehensively dealt with the subject of sustainability versus poverty outreach in microfinance Overall the results of panel data analysis confirm that there is no trade off between sustainability and poverty outreach of MFIs Thus MFIs are in a position to achieve operational self sufficiency while expanding services to the poor Further it is evident from logit analysis that group lending as against individual lending is strategically important for MFIs to achieve sustainability successfully warding off the problems of asymmetric information prevailing in the rural credit markets The book carries a detailed description on Sri Lanka s financial sector and poverty aspects with special emphasis on microfinance sector which comprises of more than 15000 service providers under a variety of institutions with different mandates and business models Policy discussion along with the findings of econometric analyses provides the reader with new insights especially in the absence of any other macro level studies carried out to cover microfinance sector in Sri Lanka
