Microsoft Dynamics Ax 2012 - A Book Marius Popescu, 2014-08-02 A guide for consultants students and financial people using Microsoft Dynamics AX 2012 ERP or preparing to implement it aiming to both presenting application s functionalities and best practices Cash flow forecasting or cash flow management is a key aspect of financial management of a business planning its future cash requirements to avoid a crisis of liquidity Cash flow forecasting is important because if a business runs out of cash and is not able to obtain new finance it will become insolvent Cash flow is the life blood of all businesses particularly start ups and small enterprises As a result it is essential that management forecasts or predicts what is going to happen to cash flow to make sure the business has enough to survive *Dynamics AX Project Accounting and Controlling (Part 1)* Ludwig Reinhard, 2017-01-23 This comprehensive guide to the Project Management and Accounting module in Microsoft Dynamics AX provides the overview you need to harness the software s power to grow your business This Dynamics AX module is ideal for tracking time and costs within an organization providing invaluable information for financial and project management It is crucial that you thoroughly plan your setup to take advantage of the module s integration with other software features such as Payables Receivables Inventory General Ledger and more Part 1 of this two part guide reviews major topics in accounting and controlling as they relate to module setup and configuration A second volume part 2 demonstrates how to tap into the module s extensive functionality in specific scenarios Together both parts form an exhaustive manual Demo machines are available for download and ready to run without specific add ons or code modifications though basic knowledge of Microsoft Dynamics AX terminology is vital These demos allow you to follow along with all examples given With its focus on issues of accounting and control this informative manual helps you optimize your use of Dynamics AX to ensure your project s success **Microsoft Dynamics NAV Financial Management** Cristina

Nicolas, Laura Nicolas, 2013-10 This book is an in depth practical tutorial demonstrating both the essential basic concepts and the more advanced concepts of financial management in Dynamics NAV This book is for financers and accountants who are using Dynamics NAV as their ERP and financial management system It will also help Dynamics NAV consultants and project managers of organizations who use the system for their daily work Additionally the book helps Dynamics NAV developers to understand the use of standard applications in organizations and helps them to develop improved features that are better integrated with existing ones **Configuring Financial Approvals & Workflows Within Dynamics AX 2012** Murray

Fife, 2014-05-18 Workflows and approval processes within Dynamics AX must be one of the most underused and also most useful features of the application and that may be because everyone thinks that they are complicated to set up and require a developer in order to get them working And that s a shame because nothing could be further from the truth The built in approval processes within Dynamics AX can be set up and running within a few minutes to control simple transactions and workflows only take a fraction longer to configure and then allow you to convert all of your archaic paper and informal

business approval processes into a streamlined and controlled business process that you can track audit and report off In the following guide we will walk through a number of different workflow and approval scenarios for you that you can probably use right now within your financial department and also show you some of the features of the workflow engine that is delivered with Dynamics AX that you can use to create your own workflows from *Microsoft Dynamics GP 2013 Financial Management* Ian Grieve,2013 A standard tutorial based approach covering Microsoft Dynamics GP 2013 and its six financial modules The book is intended to allow users to improve their system use and workflow by introducing new modules to assist in financial management This book is for you if you re a Dynamics GP partner or Dynamics GP user primarily focused on delivering application optimizations This book assumes that you have a working knowledge of Microsoft Dynamics GP and have an understanding of the requirements of financial management

Configuring Project Management and Accounting Within Dynamics Ax 2012 Murray Fife,2014-11-04 The Project Accounting module within Dynamics AX is a great module for anyone that is trying to track time and costs against projects within the organization It is especially useful because it is fully integrated with all of the other foundation areas of the product like Payables Receivables Inventory the General Ledger and much more so that as you track costs within them they are automatically applied to the project and as you create transactions within Project Accounting then they are automatically updated within the foundation modules When you add in all of the additional functions that are available within the module like collaboration workspaces worker assignment and scheduling integration with MS Project and also Timesheets Travel and Expense entry through portals then this is definitely a module that you need to get to know In this book we will look at all of the core features within the Project Management and Accounting module of Dynamics AX and show you how to set up and manage simple projects without even breaking a sweat
