Migration A World History New Oxford World:

Migration Michael H. Fisher, 2014-01 Fisher explores the process of migration chronologically and at levels varying from the migration of an individual community to larger patterns of the collective movements of major ethnic groups to the more abstract study of emigration migration and immigration **The New Oxford World History** Michael Herbert Fisher, 2014

Migration in World History Patrick Manning, Tiffany Trimmer, 2020-05-04 In this third edition of *Migration in World History* Patrick Manning presents an expanded and newly coherent view of migratory processes conveying new research and interpretation The engaging narrative shows the continuity of migratory processes from the time of foragers who settled the earth to farmers opening new fields and merchants linking purchasers everywhere In the last thousand years accumulation of wealth brought capitalism industry and the travels of free and slave migrants In a contest of civilizational hierarchy and movements of emancipation nations arose to replace empires although conflicts within nations expelled refugees The future of migration is now a serious concern The new edition includes An introduction to the migration theories that explain the shifting patterns of migration in early and recent times Quantification of changes in migration including international migration domestic urbanization and growing refugee movements A new chapter tracing twenty first century migration and population from 2000 to 2050 showing how migrants escaping climate change will steadily outnumber refugees from other social conflicts While migration is often stressful it contributes to diversity exchanges new perspectives and innovations This comprehensive and up to date view of migration will stimulate readers with interests in many fields **Migration and the Making of Global Christianity** Jehu J. Hanciles, 2021-03-16 A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the missionary role of migrants in its spread Human migration has long been identified as a driving force of historical change Building on this understanding Jehu Hanciles surveys the history of Christianity's global expansion from its origins through 1500 CE to show how migration more than official missionary activity or imperial designs played a vital role in making Christianity the world's largest religion Church history has tended to place a premium on political power and institutional forms thus portraying Christianity as a religion disseminated through official representatives of church and state But as Hanciles illustrates this top down perspective overlooks the multifarious array of social movements cultural processes ordinary experiences and non elite activities and decisions that contribute immensely to religious encounter and exchange Hanciles's socio historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia In turning the focus of the story away from powerful empires and heroic missionaries *Migration and the Making of Global Christianity* instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world

Globale Migration Jochen Oltmer, 2012-10-10 Migration ist ein globales Zukunftsthema Debatten über die Folgen des

Wachstums der Weltbevölkerung den Zustrom von Flüchtlingen vor allem aus Afrika oder die Alterung der Gesellschaften im reichen Norden zeigen dies in aller Deutlichkeit. Nur selten wird jedoch klar gesehen, dass Migration und Integration Ergebnis historischer Prozesse und staatlich verordneter Politik sind. Jochen Oltmers souveräner Überblick zeigt die hintergründigen Formen und Konsequenzen globaler Migration in der Neuzeit und schildert die großen Bevölkerungsbewegungen, die die Welt im 19. und 20. Jahrhundert fundamental geprägt haben.

Soziologie der Migration Thomas Faist, 2020-10-26 Migration betrifft viele Bereiche des sozialen Lebens. Dieser Band bietet eine Einführung in die Ursachen von Migration, die Rolle von Netzwerken, Fragen der Sozialintegration und ungleichheitsrelevante Kategorisierungen von Migrant:innen. Damit verschafft dieses Lehrbuch einen systematischen Einblick, wie soziale Ordnung als eine grenzübergreifende Hierarchie von sozialen Ungleichheiten begriffen werden kann. Grenzüberschreitende Migration wird in einen breiteren Zusammenhang von sozialen Ungleichheiten und Transnationalisierung gestellt. Das Lehrbuch ordnet die damit verbundenen Fragen mit Hilfe von Theorien und Konzepten ein, gibt eine Einführung in die einschlägigen empirischen Methoden der Migrationsforschung, liefert Beispiele für gelungene empirische Forschung und vermittelt didaktische Anregungen.

Migration History in World History, 2010-03-25 Migration is the talk of the town. On the whole, however, the current situation is seen as resulting from unique political upheavals. Such a historical interpretation ignores the fact that migration is a fundamental phenomenon in human societies from the beginning and plays a crucial role in the cultural, economic, political, and social developments and innovations. So far, however, most studies are limited to the last four centuries, largely ignoring the spectacular advances made in other disciplines which study the deep past like anthropology, archaeology, population genetics, and linguistics and that reach back as far as 80,000 years ago. This is the first book that offers an overview of the state of the art in these disciplines and shows how historians and social scientists working in the recent past can profit from their insights.

Handbuch Migrationssoziologie Antje Röder, Dariusz Zifonun, 2024-09-23 Das Handbuch eröffnet einen umfassenden Überblick zum Stand der Forschung in der Migrationssoziologie. The Oxford World History of Empire Peter Fibiger Bang, Christopher Alan Bayly, Walter Scheidel, 2021 This is the first world history of empire reaching from the third millennium BCE to the present. By combining synthetic surveys, thematic comparative essays, and numerous chapters on specific empires, its two volumes provide unparalleled coverage of imperialism throughout history and across continents from Asia to Europe and from Africa to the Americas. Only a few decades ago, empire was believed to be a thing of the past; now it is clear that it has been and remains one of the most enduring forms of political organization and power. We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods such as the relatively short age of European colonialism. The history of empire as these volumes amply demonstrate needs to be drawn on the much broader canvas of global history. Volume Two: The History of Empires.

tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Case studies deal with the full range of the historical experience of empire from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay and from ancient Rome and China to the Mughals American settler colonialism and the Soviet Union Forty five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases

Die Welten des Mittelalters Michael Borgolte, 2022-03-17 Die globalisierte Welt der Gegenwart mit ihren Orientierungskrisen erfordert eine Neubestimmung auch des Mittelalters jenseits eurozentrischer Blickverengungen Michael Borgolte zeigt in seiner magistralen Darstellung dass Europa zwar stets ein Teil der großen Welt von drei Kontinenten Europa Asien und Afrika war aber sich erst in einem langanhaltenden historischen Prozess aus seiner globalen Randposition befreien und zur eigenständigen Gestaltungsmacht werden konnte Der bedeutende Mediavist legt damit nichts Geringeres vor als die erste Globalgeschichte der mittelalterlichen Welt Anders als heute war die mittelalterliche Welt noch nicht global vernetzt Sie war geprägt von zahlreichen Lebenswelten die sich inselartig über den Globus verteilten von Amerika bis China im Nordmeer und Pazifik unterschiedlich verdichtet in Europa und Afrika Doch diese Inseln waren nicht alle isoliert Es entstanden zahlreiche wirtschaftliche kulturelle und religiöse Verbindungen von einer Intensität und Weite die der Antike noch unbekannt waren Mit stupender Gelehrsamkeit entfaltet Michael Borgolte in seinem Buch ein Panorama dieser Welten des Mittelalters und verknüpft sie zu einer Globalgeschichte wie sie auch international noch nie geschrieben worden ist

Migration and Multi-ethnic Communities Maija Ojala-Fulwood, 2018-02-19 This book aims to shed light on a global and complex phenomenon migration In order to grasp this vast and ambiguous issue the book offers ten multi layered case studies each focussing on one aspect of migration With this selection of articles this collected volume builds a bridge between the past and the present and highlight the many sides of migration The chapters will demonstrate how the questions of controlled migration movement of labour improvement of one's life and interaction of people of different origin have puzzled us in the course of the last five hundred years

Migrants and Citizens Rey Koslowski, 2018-09-05 The Berlin Wall falls as thousands of East Germans move to the West after the Iron Curtain lifts West Europeans brace for mass migrations from Eastern Europe millions of refugees flee Iraq Bosnia Haiti Rwanda and other strife torn nations The shifting tides of international migration have had a profound effect on our world from the transformation of nationality laws and European cooperation on border control to NATO intervention in Kosovo In *Migrants and Citizens* Rey Koslowski examines the impact of migration on international politics He focuses on two related avenues of inquiry the immediate political problems faced by the European Union and the general issues that confront us as we try to understand the modern international system Migration has become politically salient so quickly Koslowski argues because the nation state and the political institutions associated with it developed in the centuries during which Western Europe was a net exporter of people With the reversal of that trend less than a generation ago many of these institutions have been ill suited to deal with the political and policy demands brought on by the arrival of large numbers of foreigners Koslowski discusses how restrictive citizenship laws

exclude migrants and their children from political participation in some West European states leading observers to question the legitimacy of those states as democracies Yet when these states try to increase immigrant participation with local voting rights European Union citizenship and dual nationality the principle of a singular nationality underlying the nation state is challenged In this way the practical policy responses to migration gradually transform the political institutions of states as well as the international system they collectively constitute

Empires Ulrike Hirschhausen, Jörn Leonhard, 2023-07-13

Empires sind in unsere Welt zurückgekehrt Russlands Krieg gegen die Ukraine und Chinas neue Machtpolitik erinnern an das imperiale Ausgreifen großer Reiche im Jahrhundert der Imperien zwischen dem Ende des 18. Jahrhunderts und dem Ersten Weltkrieg Doch wie lief die europäische Aufteilung großer Teile der Welt konkret ab Und welche Handlungsoptionen hatten die Kolonisierten im Umgang mit der imperialen Macht Ulrike von Hirschhausen und Jörn Leonhard schauen genau hin und zeigen wie vielfältig die historische Entwicklung war So entsteht eine innovative Geschichte der Empires als Teil einer globalen Geschichte zum Zeitpunkt ihrer größten Ausdehnung im 19. Jahrhundert teilten die großen europäischen Mächte die Welt unter sich auf Das Britische Empire reichte von Kanada über weite Teile Afrikas bis nach Indien und Australien Das Russische Reich erstreckte sich vom Baltikum bis zum Pazifik und Habsburg expandierte auf dem Balkan während das Osmanische Reich als kranker Mann am Bosphorus erschien Doch was ist gemeint wenn von Imperien und Empires die Rede ist Diese Buch erzählt ihre Geschichte neu indem es die Begegnungen der Menschen unter den Bedingungen von Kolonialismus untersucht Es stellt die zentralen Herausforderungen der Empires den Untergang ethnischer Vielfalt in den Mittelpunkt Und es erklärt wie Kolonisierte mit Eroberung Beherrschung Integration und Ausbeutung umging So wird die Logik imperialen Handelns und die Dynamik der Gewalt ebenso erkennbar wie die Strategien der Kolonisierten die in einfachen Gegensätzen zwischen Herrschern und Beherrschten nicht aufgingen Das Ergebnis ist eine innovative und zeitgemäße Geschichte der Empires in der Welt des 19. und frühen 20. Jahrhunderts

The History of Migration in Europe Francesca Fauri, 2014-10-03 The History of Migration in Europe belies several myths by arguing for example that immobility has not been the normal condition of people before the modern era Migration far from being an income maximizing choice taken by lone individuals is often a household strategy and local wages benefit from migration This book shows how successes arise when governments liberalize and accompany the international movements of people with appropriate legislation while failures take place when the legislation enacted is insufficient belated or ill shaped Part I of this book addresses mainly methodological issues Past and present migration is basically defined as a cross cultural movement cultural boundaries need prolonged residence and active integrationist policies to allow cross fertilization of cultures among migrants and non migrants Part II collects chapters that examine the role of public bodies with reference to migratory movements depicting a series of successes and failures in the migration policies through examples drawn from the European Union or single countries Part III deals with challenges immigrants face once they have settled in their new countries Do immigrants seek

integration in their host culture Through which channels is such integration achieved and what roles are played by citizenship and political participation What is the identity of migrants and their children born in the host countries This text s originality stems from the fact that it explains the complex nature of migratory movements by incorporating a variety of perspectives and using a multi disciplinary approach including economic political and sociological contributions
