Migration And Mobility In The European Union The European Union Series:

Migration and Mobility in the European Union Andrew Geddes, Leila Hadj-Abdou, Leiza Brumat, 2020-04-22

International migration and mobility whether from outside the EU or in the form of free movement by EU citizens are controversial and potentially divisive issues that are and will remain at the top of the EU's political agenda. This fully revised and updated text analyses the complex and often controversial nature of policymaking in this fast developing field and brings the discussion up to date as the ramifications of the so called migration crisis continue to unfold. It offers an exploration of the dynamics of migration and mobility in the EU including different types of migration, the EU's policy framework within which national policies are now located and considers the widespread notion and public perception of policy failure in this field. Unique in its portrayal of policy responses to migration in Europe, this text will be essential reading for undergraduate and postgraduate students of the politics of migration, European integration and the Politics of EU as well as anyone with an interest in this fascinating policy area.

Migration, Mobility and Human Rights at the Eastern Border of the European Union Grigore Silași, 2008

The European Union's Evolving External Engagement Chad Damro, Sieglinde Gstöhl, Simon Schunz, 2017-11-07

In recent decades the external action of the European Union (EU) has been undergoing considerable change. An expansion of the EU's external policy portfolio can be observed in many areas as previous policies for internal purposes such as competition, energy, the environment, justice and home affairs or monetary governance but also gender, science, culture or higher education have developed external dimensions. This book addresses the EU's potential to become a more joined up global actor in its external engagement. It uses a single and innovative analytical framework to examine three clusters of policies: EU internal sectoral and cross-cutting policies with long-standing external engagement; those which have been undergoing considerable change; and originally internal policies whose external dimensions are comparatively more recent. It identifies key explanatory factors for the emergence of certain forms of EU external engagement and identifies patterns of the evolving relations between EU internal and external sectoral policies. As such, the book examines and assesses exciting new empirical and theoretical research avenues into European integration studies and offers insights into the extent to which the EU may be considered a more joined up global actor developing sectoral diplomacies. This text will be of key interest to scholars and students as well as practitioners in the fields of European Union politics, European Union foreign policy, European Politics, diplomacy studies and more broadly law and international relations.

Interregionalism and the European Union Mario Telò, Louise Fawcett, Frederik Ponjaert, 2016-03-09

Is the EU isolated within the emergent multipolar world? Concentrating on interregional relations and focussing on the European Union's evolving international role with regards to regional cooperation, this innovative book collects a set of fresh empirical analyses of interregional ties binding the EU with its Eastern and Southern neighbourhood as well as with Asia, Africa and the Americas. The 25 leading authors from 5 continents have contributed original and diverse chapters and the book advances a novel theoretical post-revisionist

approach beyond both the Eurocentrism of Europe First perspectives as well as the Euroscepticism of those advocating to simply move Beyond Europe After a Foreword by A Acharya the book s five sections reflect the main drivers of EU interregional policies The European Union as a Sophisticated Laboratory of Regional and Interregional Cooperation with chapters by M Tel L Fawcett and T Risse De Facto Drivers of Regionalism F Ponjaert M Shu A Vallad o and C Jakobeit De Jure Drivers of Regionalism S Lavenex G Finizio C Jakobeit R Coman C Cocq S Teo L Shah Cognitive Drivers of Regionalism J R land E Fitriani S Stavridis S Kingah P Bacon and Instrumental Drivers of Regionalism B Delcourt C Olsson G M ller A Malamud P Seabra and L Fioramonti J Kostopoulos

People on the Move ZSOLT. BATSAIKHAN DARVAS (UURIINTUYA. GONCALVES RAPOSO, INES.), Uuriintuya Batsaikhan, Inês Gonçalves Raposo, 2018-03-06 Immigration tops the list of challenges of greatest concern to European Union citizens Such movement of people pose major challenges for policymakers EU countries must integrate immigrants while managing often distorted public perceptions of immigration This Blueprint offers an in depth study that contributes to the evidence base

European Citizenship and Identity Outside of the European Union Agnieszka Weiner, 2019-06-27 This book critically engages with the concept of European identity and citizenship and the role of the European Union in diaspora membership and emigration policies It presents original research on European governance of emigration and citizenship and considers European integration in a global context It questions whether there can be a European diaspora outside the European Union if European governance of emigration is possible and whether the EU can or should govern its diasporas in the global era By engaging with concepts of European citizenship diaspora and identity the author examines the weak meaning of Europe for EU nationals living abroad and finds that European public spaces present and sustained within the European Union territory are largely not exported outside of it Equal treatment and equal rights become empty concepts for Europeans leaving the European Union as they lose their European citizenship This book will be of key interest to scholars and students of European Union politics European studies migration studies American and Canadian studies and the sociology of migration

OECD Economic Surveys: European Union 2012 OECD, 2012-03-27 OECD s 2012 Economic Survey of the European Union examines recent economic developments policy and prospects the single market and mobility and migration in Europe

The European Union's Immigration Policy Ayselin Gözde Yıldız, 2016-08-12 This book analyzes the externalization of the EU s immigration and asylum practices towards non member transit countries and the consequences of this process Selected policy areas of externalization border management visa policy readmission agreements and asylum policy are applied to Turkey and Morocco as two main migration transit countries within two different institutional cooperation mechanisms Turkey as an EU candidate country within the EU s enlargement policy Morocco without membership prospect within the EU s neighborhood policy Y ld z applies theoretical debates and critically compares the rhetoric in policy papers with practice in the field This volume not only contributes to the issue of the external dimension of EU immigration policy by incorporating transit

countries into the debate but also expands upon our understanding of the EU's contested external governance paradigm. It will be of use to students, scholars and policy makers in the field of European studies, migration and asylum studies, international relations and political science.

Populism and the Crisis of Democracy Gregor Fitzl, Juergen Mackert, Bryan Turner, 2018-10-11. The contributions to this volume 'Politics, Social Movements and Extremism' take serious note of the fact that populism is a symptom of the crisis of representation that is affecting parliamentary democracy. Right-wing populism skyrocketed to electoral success and is now part of the government in several European countries, but it also shaped the Brexit campaign and the US presidential election. In Southern Europe, left-wing populism transformed the classical two-party systems into ungovernable three-fraction parliaments, whereas in Latin America it still presents an unstable alternative to liberal democracy. The varying consequences of populist mobilisation so far consist in the maceration of the established borders of political culture, the distortion of legislation concerning migrants and migration, and the emergence of hybrid regimes bordering on and sometimes leaning towards dictatorship. Yet in order to understand populism, innovative research approaches are required that need to be capable of overcoming stereotypes and conceptual dichotomies which are deeply rooted in the political debate. The chapters of this volume offer such new theoretical strategies for inquiring into the multi-faceted populist phenomenon. The chapters analyse its language, concepts and its relationship to social media in an innovative way, draw the contours of left and right-wing populism and reconstruct its shifting delimitation to political extremism. Furthermore, they value the most significant aftermath of populist mobilisation on the institutional frame of parliamentary democracy, from the limitation of the freedom of press to the dismantling of the separation of powers to the erosion of citizenship rights. This volume will be an invaluable reference for students and scholars in the field of political theory, political sociology and European Studies.

Labour Migration in the European Union Gönül Oğuz, 2020-03-12. No analysis of migration in Europe today can avoid consideration of the role of the EU institutions as well as the member states in policy making. This is because the obstacles for labour mobility which have confronted the EU in the post-enlargement period have been multi-dimensional in nature, have encompassed many different aspects of the European integration process and have operated at many different levels. Recent developments in the free movement of labour in Europe entail a comprehensive analysis of the dynamic of migration policy process, contextualising institutional change, cooperation, control and competition between the EU institutions and the member states. This book provides a picture of how governance of labour migration is constructed, managed, negotiated and decided at the European level. It brings together in an informed and well-organized way some of the key issues in the face of current migration crises and Brexit.

Asylum - A Right Denied Helen O'Nions, 2016-04-15. In recent decades, asylum has emerged as a highly politicized European issue. The term 'asylum seeker' has suffered a negative perception and has been associated with notions of illegality and criminality in mainstream media. These misconceptions have been supported by politicians as a distraction from economic and political uncertainties.

with the result that asylum seekers have been deprived of significant rights This book examines the effect of recent attempts of harmonization on the identification and protection of refugees It considers the extent of obligations on the state to admit and protect refugees and examines the 1951 Refugee Convention The motivations of European legislators and legislation concerning asylum procedures and reception conditions are also analysed Proposals and initiatives for refugee movements and determinations are examined and assessed The author makes suggestions for better protection of refugees while responding to the security concerns of States and questions whether European law and policy is doing enough to uphold the fundamental right to seek and enjoy asylum as set out in the Universal Declaration of Human Rights This book takes a bold look at a controversial issue and generates discussion for those involved in the fields of human rights migrational and transnational studies law and society and international law

The Mediterranean Dimension of the European Union's Internal Security S. Wolff, 2012-09-27 EU internal security concerns such as migration police and judicial cooperation are today part of EU foreign policy This book shows how those concerns dominate the EU agenda towards Mediterranean countries Adopting a rational choice institutionalist approach it explores EU policy and the strategic choices made after the 2011 Arab revolts

Joint Ownership in EU-Tunisia Relations Federica Zardo, 2019-09-26 This book provides an in depth analysis of EU Tunisia negotiations during the last three decades to understand what joint ownership means in Euro Mediterranean relations The principle of joint ownership often figures in the EU's public discourse of the EU and other international actors Yet it has been scarcely conceptualised and there is little research on which factors determine its presence or lack thereof The book contributes to its definition highlighting its evolving nature and intersubjective dimension The author further explains how bargaining rules practices and procedures affect joint ownership by constraining or empowering actors and shaping their expectations about which options they perceive are possible during the negotiations Negotiation analysis proves useful for showing how and to what extent the interests of both sides eventually feature in Euro Mediterranean agreements and enables scholars to bring back third countries agency and perceptions into the study of the EU's external relations

Governing Migration Beyond the State Andrew Geddes,2021-01-19 International migration has become a salient concern in global politics but there is also significant variation in governance responses By focusing on four key world regions Europe North America South America and Southeast Asia this book explores the underlying factors that shape governance responses Rather than focusing on the more visible outputs or outcomes of governance processes such as laws and policies this book opens the black box of migration governance to reveal how understandings and representations of the causes and effects of migration held by key governance actors in these four regions have powerful effects not only on governance outcomes but more broadly on the prospects for global migration governance By doing so the book shows how migration governance systems through their operation and effects can shape migration in its various forms and the lived experiences of migrants
