Brown,2021 Kindergarten has changed Many believe that it no longer reflects a nurturing environment but instead has become a race for children to learn skills so they are ready for the academic achievement tests that they will take continuously throughout their time in school Resisting the Kinder Race examines how the race came about why it must change and how all stakeholders in the early childhood and elementary school communities must take part in the reform process The author draws on his own research to consider how the Kinder Race might be reimaged through more democratic principles of schooling Brown offers both practical and political strategies that can alter the day to day practices of the kindergarten classroom and the policies that currently define PreK 12 education in the United States This resource will help readers see kindergarten as an educational environment that expands the learning of every child Book Features Provides an in depth glimpse into a typical day in the Kinder Race Examines how kindergarten devolved from a garden that nurtures children into a race that dashes them from skill to skill Brings together what are often siloed conversations among stakeholder groups Highlights how kindergarten is now primarily defined through an economic lens and how this framing of learning earning and consuming might be rethought Employs varied conceptual frameworks to investigate how stakeholders across different levels of public education make sense of the changed kindergarten Illuminates the complexity of what is occurring in today s kindergarten and puts forward practical and achievable ideas for change *Educational Psychology Australian Edition* Anita Woolfolk,Kay Margetts,2012-07-25 Learning and teaching is an integrated process and theory and practice cannot be separated As in the previous Australasian edition Educational Psychology 3e continues to emphasise the educational implications and applications of child development cognitive science learning and teaching Recurring themes throughout the text include ideas about education social and socio cultural aspects of education schools families and community development learning and curriculum and effective teaching Author Kay Margetts incorporates Australasian perspectives and applications using the work of Australasian researchers and teachers Numerous examples case studies guidelines and practical tips from experienced teachers are used in the text to explore the connections between knowledge understanding and practice **When Relationships Matter** Crystal Tanyag Goins,2021-02-08 When the whole world shuts down what is left to rely on Human relationships In Mrs Goins classroom these relationships are called partnerships In this book Crystal Goins shares her own personal story in creating a partnership approach to classroom management Through her system called PART she teaches her students and parents how to partner with the teacher in all areas of school readiness and academic success She explicitly teaches routines and procedures with her students in mind She uses a set of sayings called
