Baldwin,2024-07-09 A searing critique of the disability rights movement from within and a call for collective liberation that is pro Black and centers disabled people of color For over twenty years Dara Baldwin has often been the only person of color in the room when significant disability policy decisions are made Disenfranchisement of people of color and multi marginalized communities within the disability rights community is not new and has left many inside the community feeling frustrated and erased In **To Be a Problem** Baldwin candidly shares her journey to becoming a disability activist and policymaker in DC while critiquing the disability rights community She reveals the reality of erasure for many Black people and people of color in the disability movement and argues that in turn many white disabled people center themselves within the work without addressing their own white privilege Disability rights groups have been centering white straight cisgender people while racial justice groups often fail to center disabled people leading many Black and Brown disabled people to start their own Disability Justice organizations Drawing from her unique vantage point Baldwin calls readers to understand the shortcomings of the disability rights movement while inspiring us to push all movements towards a more inclusive and authentic liberation

SMART Supply Network Arkadiusz Kawa,Anna Maryniak,2018-06-14 This book describes approaches opinions and concepts for new and emerging solutions and technologies that could be successfully applied in the configuration

optimization and management of supply networks in the highly volatile environment of today's global economy. It features numerous case studies and quantitative research from different sectors and different countries. The authors, which include academics and managers alike, present tips on technical, organizational, financial, and social aspects of implementing the new SMART solution. Dynamic and changing market conditions have made it necessary for companies to act in networks to maintain their competitive position. Accordingly, they have to adapt their own actions to those of other market players, which requires a SMART attitude. Today's supply networks need to be Sustainable, Modern, Adaptive, Robust, and innovative. Technology oriented. For example, this concerns making decisions about the extent to which a business model should be green or lean. In turn, these decisions impact logistics, IT, environmental issues, and co-operation between suppliers, customers, competitors, and complementors.

Cruising World, 1979-01 *The Handheld Library* Thomas A. Peters, Lori A. Bell, 2013-04-01

Covering topics such as mobile reference, eBooks, mobile websites, and QR codes, this book examines the effects of the global mobile revolution on libraries and library users. Critical information all librarians need. *The Handheld Library: Mobile Technology and the Librarian* provides the information and guidance librarians need to adapt themselves and their facilities to the mobile revolution, the fastest, most diffuse, worldwide technological innovation in human history. The book provides an up-to-date survey of how mobile technologies are affecting library use, library services, library systems, librarians, and library users at various types of libraries. The authors cover core topics related to mobile libraries, including mobile reference, eBooks, mobile websites, and QR codes, and address aspects of the mobile revolution less frequently covered in the literature, such as mobile health information services, the use of mobile technologies on archival work, the impact of the mobile revolution on physical libraries, and the ways in which new mobile technologies are creating professional development opportunities within the profession. While this resource is specifically targeted toward librarians who plan and provide services using mobile technologies, academic, public, and other librarians will also find the ideas and information within useful.
