Mobile Mapping Clancy Wilmott,2025-10-01 This book argues for a theory of mobile mapping a situated and spatial approach towards researching how everyday digital mobile media practices are bound up in global systems of knowledge and power Drawing from literature in media studies and geography and the work of Michel Foucault and Doreen Massey it examines how geographical and historical material social and cultural conditions are embedded in the way in which contemporary digital cartographies are read deployed and engaged This is explored through seventeen walking interviews in Hong Kong and Sydney as potent discourses like cartographic reason continue to transform and weave through the world in ways that haunt mobile mapping and bring old conflicts into new media In doing so Mobile Mapping offers an interdisciplinary rethinking about how multiple translations of spatial knowledges between rational digital epistemologies and tacit ways of understanding space and experience might be conceptualized and researched

The Software Architect Elevator Gregor Hohpe,2020-04-08 As the digital economy changes the rules of the game for enterprises the role of software and IT architects is also transforming Rather than focus on technical decisions alone architects and senior technologists need to combine organizational and technical knowledge to effect change in their company s structure and processes To accomplish that they need to connect the IT engine room to the penthouse where the business strategy is defined In this guide author Gregor Hohpe shares real world advice and hard learned lessons from actual IT transformations His anecdotes help architects senior developers and other IT professionals prepare for a more complex but rewarding role in the enterprise This book is ideal for Software architects and senior developers looking to shape the company s technology direction or assist in an organizational transformation Enterprise architects and senior technologists searching for practical advice on how to navigate technical and organizational topics CTOs and senior technical architects who are devising an IT strategy that impacts the way the organization works IT managers who want to learn what s worked and what hasn t in large scale transformation
