Mikhail Bakhtin Creation Of A Prosaics:

Mikhail Bakhtin Gary Saul Morson, Caryl Emerson, 1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin's own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin's thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive *Mikhail Bakhtin* Gary Saul Morson, 1990

of transversality or the state of postethnicity which the book argues has come to characterize the global culture of our times Hwa Yol Jung brings together prominent contemporary thinkers including Thich Nhat Hanh Edward Said and Judith Butler to address this fundamental and important aspect of comparative political theory The book is divided into three parts Part One demythologizes Eurocentrism deconstructing the privilege of modern Europe as the world's cultural scientific religious and moral capital Part Two traces the rise of Asian thought and the process of East West cultural hybridization while Part Three introduces the concept of the global citizen Jung's anthology reveals a postmodern multiculturalism whose new philosophical matrix transgresses the existing cultural and intellectual typology to offer new understanding of today's pluralistic world

To Kill a Text Ilinca Sarifopol-Johnston,1995 Ilinca Zarifopol Johnston's book traces the covert manifestations of Hugo's romantic notion of the novel through later French and English realism arguing that the anachronistic traces of past literary periods are always at work defining the aims of the present no matter how radical a new departure it seems or tries to be

Historische Zeit im Narrativ Elena Hamidy,2020-04-02 Elena Hamidy definiert den Begriff der historischen Zeit erstmals anhand der Theorien Michail Bachtins und Paul Ricoeurs und setzt ihn analytisch ein indem sie die Literatur als legitimes Medium der Geschichtsreflexion betrachtet das spezifische Ressourcen für die narrative Aufarbeitung der Vergangenheit bereithält Maksim Gor'kij und Robert Musil's Romane besitzen die dafür passende Gemeinsamkeit nicht ausschließlich auf die Darstellung der politischen Geschichte spezialisiert zu sein Es zeigt sich dass in ihrer historischen Zeit die kollektive Ideenpraxis der Kampf der Weltanschauungen und die symbolischen Mechanismen als geheime Triebfeder der Geschichte in den Vordergrund der Erzählung treten

Reconsidering Gender Myk Habets,Beulah Wood,2011-01-01 Questions related to the issue of gender remain insufficiently acknowledged and explored in contemporary theological literature These issues form the basis of significant unresolved tensions among evangelicals as evidenced in debates over the nature of the Trinity Bible translation church practice choice of language mission leadership decision making in homes and parenting to name but a few examples The essays in this volume are not meant to provide a monolithic evangelical theology of gender but rather to provide evangelical perspectives surrounding the topic of gender To further this aim each of the main essays is followed by a formal response with an attempt at a concise and lucid perspective on the essay and pointers to further areas for investigation Some contributors are complementarian while others are egalitarian although who is what is left to the discerning reader Regardless of one's position on the issue all will benefit from the contributors' commitment to the further exploration of gender issues from the perspective of a broadly conceived evangelicalism

Western thought Caryl Emerson brings to light what might be unfamiliar to the non Russian reader Bakhtin s foundational ideas forged in the early revolutionary years yet hardly altered in his lifetime With the collapse of the Soviet system a truer sense of Bakhtin s contribution may now be judged in the context of its origins and its contemporary Russian reclamation A foremost Bakhtin authority Caryl Emerson mines extensive Russian sources to explore Bakhtin s reception in Russia from his earliest publication in 1929 until his death and his posthumous rediscovery After a reception history of Bakhtin s published work she examines the role of his ideas in the post Stalinist revival of the Russian literary profession concentrating on the most provocative rethinkings of three major concepts in his world dialogue and polyphony carnival and outsideness a position Bakhtin considered essential to both ethics and aesthetics Finally she speculates on the future of Bakhtin s method which was much more than a tool of criticism it will tell you how to teach write live talk think **Kölner romanistische Arbeiten**, 2000
