Beck,2025-01-31 The Fairchild C 119 Flying Boxcar was the leading and most numerous military cargo and paratroop transport of the United States Armed Services throughout the 1950s Cold War era The Korean War saw the Boxcar earn its keep in the vital role of aerial resupply to U S forces and it returned to front line duties during the Vietnam War as an armed aerial gunship This reference manual records the full service histories both military and civil of all 1 185 C 119 Flying Boxcars built Cross referenced production lists and tables are supported by multiple comprehensive appendices recording combat losses accidents and surviving craft **The Heartland** Kristin L. Hoganson,2019-04-23 A history of a quintessentially American place the rural and small town heartland that uncovers deep yet hidden currents of connection with the world When Kristin L Hoganson arrived in Champaign Illinois after teaching at Harvard studying at Yale and living in the D C metro area with various stints overseas she expected to find her new home well isolated Even provincial After all she had landed in the American heartland a place where the nation s identity exists in its pristine form Or so we have been taught to believe Struck by the gap between reputation and reality she determined to get to the bottom of history and myth The deeper she dug into the making of the modern heartland the wider her story became as she realized that she d uncovered an unheralded crossroads of people commerce and ideas But the really interesting thing Hoganson found was that over the course of American history even as the region s connections with the rest of the planet became increasingly dense and intricate the idea of the rural Midwest as a steadfast heartland became a stronger and more stubbornly immovable myth In enshrining a symbolic heart the American people have repressed the kinds of stories that Hoganson tells of sweeping breadth and depth and soul In *The Heartland* Kristin L Hoganson drills deep into the center of the country only to find a global story in the resulting core sample Deftly navigating the disconnect between history and myth she tracks both the backstory of this region and the evolution of the idea of an unalloyed heart at the center of the land A provocative and highly original work of historical scholarship *The Heartland* speaks volumes about pressing preoccupations among them identity and community immigration and trade and security and global power And food To read it is to be inoculated against using the word heartland unironically ever again *The Parachute Manual* Dan Poynter,1984
