Millionaire Status Dr. Israel Prince, Kingdom Dominion Enterprises, 2006 **Commune, Country and Commonwealth** David Rollison, 2011 Commune country and Commonwealth suggests that towns like Cirencester are a missing link connecting local and national history in the immensely formative centuries from Magna Carta to the English Revolution Focused on a town that made highly significant interventions in national constitutional development it describes recurring struggles to achieve communal solidarity and independence in a society continuously and prescriptively divided by gross inequalities of class and status The result is a social and political history of a great trans generational epic in which local and national influences constantly interacted From the generation of Magna Carta to the regicides of Edward II and Richard II through the vernacular revolution of the long fifteenth century and the chaos of state reformations to the great revival that ended in the constitutional wars of the 1640s the epic was united by strategic location and by systemic structural inequalities that were sometimes mitigated but never resolved Individual and group personalities emerge from every chapter but the personality that dominates them all Rollison argues is a commune with a mind of its own continuously regenerated by enduring strategic realities An afterword describes the birth and development of a new rural myth and identity and suggests some archival pathways for the exploration of a legendary English town in the modern and postmodern industrial and post industrial epochs GodStrong Samuel, 2013-12 We all have challenges sorrows and troubles but it s possible to turn any adverse situation around when you re teaming up with the Lord In this guide a career pastor and prophet explores some of the doubts fears and perplexities he has experienced throughout life and reveals how he has relied on the power of the Holy Spirit to find answers comfort strength and guidance In GodStrong he explains how you can use doubt to strengthen your faith profit from life s traumatic experiences and partner with God to build momentum and achieve your goals You won t get anywhere in life by relying on a church made miracle manic god that loathes the self dependent and rationally spiritual By understanding that success is dependent on the powers of self reliance rather than on naive expectations of divine miracles you can discover how to be a true champion of God Cherish the independence and freedom inherent in direct guidance from the creator and then do the hard work that s necessary to achieve your objectives Turn your pains into personal gains by being GodStrong *Encyclopedia of Global Environmental Change, Set* Ted Munn, Michael C. Biodiversity Susan Hawthorne,2014-09-01 In a globalised world megacorp publishing is all about numbers about sameness about following a formula based on the latest megasuccess Each book is expected to pay for itself and all the externalities of publishing such as offices and CEO salaries It means that books which take off slowly but have long lives the books that change social norms are less likely to be published Independent publishers are seeking another way A way of engagement with society and methods that reflect something important about the locale or the niche they inhabit Independent and small publishers are like rare plants that pop up among the larger growth but add something different perhaps they feed the soil bring colour or scent into the world Biodiversity is a term invented by Chilean publishers in the 1990s as a way of envisioning a different kind of publishing In this manifesto Susan Hawthorne provides a scathing critique of the global publishing industry set against a visionary proposal for organic publishing She looks at free speech and fair speech at the environmental costs of mainstream publishing and at the promises and challenges of the move to digital
