Approaching pathology in patients Carlos Humberto Saavedra Trujillo, 2015-11-01 The first human society recognized to date is the Sumerian culture It grew in the Middle East on the banks of where the Tigris and Euphrates rivers meet around the year 2500 BCE This first society was already familiar with the concept of disease It was defined as an invasion and shutting in of a demon within sick persons body The Sumerians tried to remove the demon by administering substances that would confuse it and make it abandon the victims body That's why for many years it was thought that relief and curing had only a spiritual or religious origin Therefore people depended on priests in organized societies that had priestly orders or on shamans in nomadic societies or in those without priestly orders the only ones capable of communicating with the spirits in order to correct the problem They were responsible for both their religious functions and for caring for health *Pathologist of the Mind* S. D. Lamb, 2014-11-20 Illuminating the contributions of Adolf Meyer the pioneering father of modern American psychiatry Winner of the CHOICE Outstanding Academic Title of the Choice ACRL During the first half of the twentieth
