Building Wealth with Silver Thomas Herold, 2011. The greatest transfer of wealth in the nation and the world is now unfolding. Money is about to flow away from the financially uninformed and flow towards the financially well-informed in the years ahead. Whenever governments start to dilute their money, investors transfer their money into gold and silver. Although gold is a great way to preserve your wealth, it's silver you could actually make a fortune with. Protect your savings and create a substantial investment income every single month. Financial ignorance is the only reason you are not yet cashing in on the biggest wealth transfer in history. A Solid Method to Achieve Financial Freedom. This book will show you exactly how to live and prosper by the new laws of money in the new economy. It will show you how to beat the new money thieves: Banks and Governments at their own game while quietly profiting from the money meltdown that is now underway. We are approaching a monetary crisis of epic proportions never before seen. You are probably aware of the rising price of gold that's been going on for almost 10 years now. Most recently gold started climbing with even greater speed. History repeats itself again and again. Whenever governments start to dilute their money, investors transfer their money into gold and silver. Gold and silver have intrinsic value and will always prevail in any economy. Many financial experts predict that gold could at least double to 3,000-3,500 and some say even 5,000. But experts also predict the price of silver could rise seven to eight times its current value before hitting its peak. What most non-investors and investors including yourself probably don't realize is that although gold is a great way to preserve your wealth, it's silver that could actually make you rich. The price of gold has already risen dramatically but silver is just beginning its parabolic climb. Over the last 9 years the silver price increased an average of 29% per year. Compare this to the stock and real estate market which declined when adjusted for inflation. Nine Reasons Why Silver is a Unique Wealth Building Instrument. Silver like gold has intrinsic value. Silver has been in a commodity bull cycle since 2000. Silver is a safe hedge against currency inflation. Silver is a security choice during times of financial crisis. Silver is rarer than gold. Silver is used in 90% of all electronics and its mostly non-renewable. Silver leasing the scam will be exposed soon. Silver investment markets are expanding thanks to the Chinese. What You Will Learn From Building Wealth with Silver. You will discover why the Federal Reserve was created and why you and I have been kept in the dark about its true purpose. You will find out why the U.S. dollar is quietly being destroyed without fanfare and the reason this process is being publically denied and covered up. Learn Why Silver is the Best Investment Opportunity Right Now. Get the facts on silver production and consumption and all the details behind silver's

projected five to eight fold increase over the next several years Financial Education Is The Solution To Financial Freedom Discover the facts about our global banking and government system that will change the way you look at money forever You will learn how to buy silver at the lowest price Professional trading techniques that leverage and maximize your profit Understanding how the money system works will give you financial freedom During the next few years the global financial system will be restructured on a scale that has never seen before There are a few opportunities for you to profit from it silver is one of them

Beadles, 2009-04 We teeter on the edge of an historical economic abyss News stories bring reports of job losses foreclosures and shriveling investments So many can t make ends meet fear losing their jobs and are confounded by our economy s flux The country s frustration is palatable So what do you do If you ve asked this question this book will change how you look at our economy and your livelihood In simple straightforward language author Robert Beadles gives guidance on what to do to secure your financial future Beadles presents a handful of powerful and yes often radical economic ideas His plans though are rooted in a convincing historical context In plain English he explains how to convert your shrinking low interest investments into solid no fail assets gold silver and real estate Set against the larger context of the Fed he explains why and how these vehicles endure inflation and bad economic policies The power of this book is in its brevity Beadle s short answers are backed by viable alternate strategies that you can easily understand Yet his small words have big meanings So if you re confused about what do to buy this book What you do thereafter is entirely up to you **Going for Gold** Zoltan Erdey, 2021-03-10 Do you want to build your wealth and secure your financial future Do you want to ensure that inflation

does not eat away at everything that you have worked so hard for Do you want to own wealth outside of the paper financial system If your answer to these three questions is yes then you need to own real money Not rands dollars or euros these are merely fiat currencies You want to own gold and silver as without them your wealth is only worth the value of the ink and the paper on which it is printed For thousands of years holders of gold and silver have discovered that both metals are monetary antidotes against global financial chaos caused by debt fiscal imprudence and ad infinitum money printing The proprietor of even a few ounces of gold is not only an investor but an individual with the assurance that their wealth and purchasing power remains preserved Going for Gold is not an attempt to coerce investors into allocating a portion of their total investment portfolio to precious metals Rather it speaks directly to the South African investor and declutters and contextualises the vast amounts of information available about precious metals providing counsel that the mainstream financial industry has disregarded at best and suppressed at worst
