Die Kunst der gelebten Zeit Martin Middeke, 2004 Das Konzept der Gelebten Zeit ist der kulturellen Anthropologie und insbesondere der phänomenologischen Psychopathologie Eugene Minkowskis entlehnt Der Begriff impliziert dass menschliches Bewusstsein die Zeit in verschiedenen Dimensionen zugleich erfährt Die vorliegende Studie zeigt dass solch ein unproblematisch empfundener Synchronismus im englischen Roman des ausgehenden 19. Jahrhunderts nur noch als fernes anthropologisches Desiderat erscheint Die gelebte Zeit avanciert vielmehr zum zentralen inhaltlichen wie strukturellen Problem dieser Romane Es wird von vier Dimensionen der gelebten Zeit ausgegangen Zeitlichkeit Thermodynamische Zeit Soziale Zeit Subjektive Zeit Mythische Zeit Diese werden in ihren philosophischen Wurzeln erl utert wobei insbesondere der philosophische Diskurs des ausgehenden 19. Jahrhunderts Darwin Schopenhauer Nietzsche Freud in den Blick genommen wird In einem zweiten entscheidenden theoretischen Schritt argumentiert die Studie dass die behandelten Romane zu Zeitromanen werden Die Zeit ist in ihnen nicht nur ein allen Erzähltexten inhärentes Strukturcharakteristikum sondern wird über dies hinaus selbst zum Thema der Romane Exemplarische Einzelanalysen weisen eine fiktionale Kon- und Refigurierung P Ricks von Zeiterfahrung an Paters Marius the Epicurean Wildes *The Picture of Dorian Gray*es Hardys *Jude the Obscure* Stokers *Dracula* Conrads *Lord*

The Totalitarian Experiment in Twentieth-century Europe David D. Roberts, 2006 By assessing totalitarianism in a more deeply historical way this study suggests how we might learn further lessons from this troubling phase of modern political development Jacket

The New Demons Simona Forti, 2023-05-25 The Italian philosopher and author of Totalitarianism rescues the concept of evil as an element necessary for guidance in political reflection Dialogue Canadian Philosophical Review As long as we care about suffering in the world says political philosopher Simona Forti we are compelled to inquire into the question of evil But is the concept of evil still useful in a postmodern landscape where absolute values have been leveled and relativized by a historicist perspective Given our current unwillingness to judge others what signposts remain to guide our ethical behavior Surveying the nineteenth and twentieth century Western philosophical debates on evil Forti concludes that it is time to leave behind what she calls the Dostoevsky paradigm the dualistic vision of an omnipotent monster pitted against absolute helpless victims No longer capable of grasping the normalization of evil in today's world whose structures of power have been transformed this paradigm has exhausted its explanatory force In its place Forti offers a different genealogy of the relationship between evil and power one

that finally calls into question power's recurrent link to transgression At the center of contemporary evil she posits the passive attitude towards rule following the need for normalcy and the desire for obedience nurtured by our contemporary mass democracies In our times she contends evil must be explored in tandem with our stubborn desire to stay alive at all costs as much as with our deep need for recognition the new modern absolutes A courageous book *The New Demons* extends an original inspiring call to ethical living in a biopolitical age The Novel André Brink,1998-04-30 The postmodernist novel is renowned for the extremes of its narcissistic involvement with language but in this book the author argues that this self consciousness has been a characteristic of the novel since its earliest stirrings **Ignorance** Milan Kundera,2020-12-23 The bestselling masterpiece tale of love and exile in Prague by the author of modern classic *The Unbearable Lightness of Being* An artist clearly one of the best to be found anywhere Salman Rushdie A subtle penetrating and deeply felt exploration of the sadness loneliness and irreparable loss of exile one of Kundera's best novels Sunday Times Irena has been exiled to Paris since leaving Czechoslovakia after the crushing of the Prague Spring in 1968 Twenty years later after the collapse of Communism she returns to her homeland and reunites by chance with Josef a fellow migr and her one time lover Will they pick up the thread of their strange love story interrupted in their native land almost as soon as it began now lost in the tides of history far from home Or do their memories no longer align A profound polyphonic meditation on absence and alienation nostalgia and truth *Ignorance* is a masterpiece exposing the reality behind the romance of the homeward voyage *Self and Deception* Roger T. Ames,Wimal Dissanayake,1996-07-03 This volume contains essays by a range of distinguished philosophers on the problem of self deception or rather self and deception The work proceeds from the assumption that changing constructions of self within Western cultures and alternative notions of self in other cultures requires that we rethink traditional strategies for explaining the phenomenon of self deception The concept of self is central to any sustained inquiry into self deception the pertinent issue being what sort of self is victim or beneficiary of self deception Several of the authors here base their thinking on the model of other deception and include discussion of the notions of double selves multiple selves and subsystems of the self to address this troubling problem Other authors argue that other deception is not an adequate or reliable model to guide our thinking on this issue The psychological and moral dimensions of self deception generate a rich discussion as do its epistemic implications The concept of emotionality also receives sustained attention

Wie werden Konzepte von Körper im sozialen bzw kulturellen Raum hergestellt Ausgehend von dieser Frage stellt dieses Buch interdisziplinäre Zugänge zur Geschlechtergeschichte vor und bezieht dabei Kontexte vom Mittelalter bis in die Gegenwart ein Die Beiträge nehmen nicht allein historische Körperdiskurse in den Blick sondern zugleich Prozesse des Herstellens des Einseins der Affirmation aber auch der Subversion von Körperidentitäten in der Geschichte Wie spielten

vergeschlechtlichte Körpervorstellungen und Körperperformanz in unterschiedlichen historischen Epochen zusammen Wie setzten sich Individuen und soziale Gruppen in Beziehung zu hegemonialen Gender und Körpernormen Wie greifen körperliche Erfahrungen und wirkmächtige kulturelle Körperdiskurse ineinander Welche spezifischen Funktionen nehmen vergeschlechtlichte Körperbilder in macht und kulturpolitischer Rhetorik ein How are concepts of the body represented in a social or cultural context Starting with this question this book presents an interdisciplinary insight into the history of gender using contexts from the Middle Ages up to the present day These contributions take a look not only at historical discourses of the body but also at processes of the production the practise the affirmation as well as the subversion of body identities throughout history How did gendered body representations and physical performance coexist in different historical epochs How did individuals and social groups relate to hegemonic gender and body norms How do physical experiences and effective cultural body discourses interblend What specific functions do gender images of the body have in rhetoric based on power and cultural politics

Of Love and Other Sorrows Ashok Chopra, 2016-02-15 Reports announcing the death of the book are now rife but the continued relevance of the ten master writers discussed in this volume is proof to the contrary Here we come across the dissident Czech writer Václav Havel who later became the nation's president the South African Nobel Laureate Nadine Gordimer with her pronounced anti-apartheid novels the Chilean American Isabel Allende the world's most widely read Spanish author and Günter Grass hailed as the literary spokesman of his generation We also meet Graham Greene and Milan Kundera alongside the Egyptian Naguib Mahfouz who in his quiet way ridiculed Islamic fundamentalism The book is rounded off with three remarkable Latin American writers Pablo Neruda Octavio Paz and Gabriel García Márquez Of Love and Other Sorrows takes the reader on a fascinating journey in the company of some of the biggest names in modern literature This illuminating study of their lives and works will seduce readers to rediscover these masters for themselves

The Totalitarian Experiment in Twentieth Century Europe David Roberts, 2006-04-27 By developing a long term supranational perspective this ambitious multi-faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book's original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth-making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important lessons about the ongoing challenges possibilities and dangers of the modern political experiment
