Building Stones of Milan and Lombardy Roberto Bugini, Luisa Folli, 2023-04-17 Milan has played an important role in the Italian country since the Roman period This importance is reflected also by the diffusion of stone architecture a persisting trait of Milan architecture was the use of different stones in the same building Milan lies in the middle of the alluvial plain of the Po far from the stone quarries some waterways were dug out in order to supply the building stones from the surrounding territories The study of stone as a building material was significant at the end of 19th century but then it was largely neglected by both architects and geologists So it is significant to suggest a study about the stones employed to build in Milan Volume 1 in relationship with a petrographic study about the features of the stones quarried in the whole Lombard territory Volume 2 The present volume contains a record of Milanese

edifices marking the different historical periods Each edifice is described in a card containing the building history the architect the kind of stone employed and subdivided according to the different parts of the building and the shape of stone elements A particular investigation is addressed to the stones used during the 20th century a great part of them were never used before in Milan or in Lombardy

The Routledge Companion to Italian Fascist Architecture Kay Bea Jones,Stephanie Pilat,2020-04-30 Today nearly a century after the National Fascist Party came to power in Italy questions about the built legacy of the regime provoke polemics among architects and scholars Mussolini s government constructed thousands of new buildings across the Italian Peninsula and islands and in colonial territories From hospitals post offices and stadia to housing summer camps Fascist Party Headquarters ceremonial spaces roads railways and bridges the physical traces of the regime have a presence in nearly every Italian town The Routledge Companion to Italian Fascist Architecture investigates what has become of the architectural and urban projects of Italian fascism how sites have been transformed or adapted and what constitutes the meaning of these buildings and cities today The essays include a rich array of new arguments by both senior and early career scholars from Italy and beyond They examine the reception of fascist architecture through studies of destruction and adaptation debates over reuse artistic interventions and even routine daily practices which may slowly alter collective understandings of such places Paolo Portoghesi sheds light on the subject from his internal perspective while Harald Bodenschatz situates Italy among period totalitarian authorities and their symbols across Europe Section editors frame synthesize and moderate essays that explore fascism s afterlife how the physical legacy of the regime has been altered and preserved and what it means now This critical history of interpretations of fascist era architecture and urban projects broadens our understanding of the relationships

among politics identity memory and place This companion will be of interest to students and scholars in a range of fields including Italian history architectural history cultural studies visual sociology political science and art history

Barcelona/Milán: Arquitecturas modernas en contacto Gaspar Jaén i Urban, Marco Lucchini, 2023-06-19 Barcelona y Milán a pesar de ser dos ciudades muy diferentes respecto a la morfología y a la historia urbana además obviamente de la diferente situación social y política que vivieron sus habitantes entre 1945 y 1977 presentan en gran parte del novecientos características tipológicas convergentes que se pueden reconocer con facilidad especialmente por lo que se refiere a muchas piezas arquitectónicas de la modernidad construidas a partir de los primeros años cincuenta cuando los arquitectos más significativos de ambas ciudades entraron en un contacto amistoso y profesional intenso y continuado que se prolongó con la incorporación de actores diferentes hasta final del siglo XX Pero los edificios que proyectaron estos arquitectos muestran afinidades más complejas y profundas de las que se podría pensar que se derivan de un simple cambio de ideas entre profesionales y tienen que ver con aspectos comunes del *genius loci* de ambas ciudades y con estrategias de difusión de los principios proyectuales La interrelación entre ambas ciudades era por una parte una forma de escapar del sofocante control de la dictadura franquista pero por otra era una forma de difundir la concepción de la modernidad de la Escuela de Milán alejada del mito de la tecnología y cercana a la valoración del contexto urbano y a una visión crítica de la historia Pero esta conexión no solo fue en un sentido ya que si Milán influyó en Barcelona también Barcelona influyó en Milán y no únicamente en términos urbanos y arquitectónicos sino también políticos económicos y sociales

Design for Life Stuart Walker, 2017-04-21 Stuart Walker's design work has been described as life changing inspiring disturbing and ferocious Drawing on an extraordinarily diverse range of sources and informed by creative practice Design for Life penetrates to the heart of modern culture and the malaise that underlies today's moral and environmental crises The author argues that this malaise is deep seated and fundamental to the modern outlook He shows how our preoccupation with technological progress growth and the future has produced a constricted view of life one that is both destructive and self reinforcing Based on over twenty five years of scholarship and creative practice he demonstrates the vital importance of solitude contemplation inner growth and the present moment in developing a different course one that looks squarely at our current precarious situation while offering a positive hopeful way forward a way that is compassionate context based human scale ethically motivated and critically creative Design for Life is an intensely original contribution that will be essential reading for design practitioners and students Written in a clear accessible style it will also appeal to a broader readership especially anyone who is concerned with contemporary society's rising inequalities and environmental failings and is looking for a more constructive balanced and thoughtful direction

Interwar Architecture with Reinforced Concrete Structure Exposed to Multihazard in European Context Maria Boştenaru Dan, 2013 The theme of this book is between the response to environmental hazards such as earthquakes of housing of the so called other Modernism over issues of conservation of historical materials as a kind

of sustainable urban development which includes inhabitants participation It is important to preserve memory and this book uses the knowledge of art a multimedia installation and the role of photography as an example of virtual witness It includes a dialogue about traditional earthquake resistant natural materials with modern construction in order to learn lessons about retrofitting Series Architecture Architektur Vol 11
