Botticelli,2011-01-19 At the outset of World War I the Great War Freud supported the Austro Hungarian Empire for which his sons fought But the cruel truths of that bloody conflict wrought on the psyches as much as the bodies of the soldiers returning from the battlefield caused him to rethink his stance and subsequently affected his theory Psychoanalysis a healing science could tell us much about both the drive for war and the ways to undo the trauma that war inherently breeds but its principles could just as easily serve the enemy s desires to inculcate its own brand of truth Even a century later psychoanalysis can still be used as much for the justifications of warfare and propaganda as it is for the defiance of and resistance to those same things But it is in the investigation of the motives and methods behind these uses that psychoanalysis proves its greatest strength To wit this edited collection presents published and unpublished material by analysts writers and activists who have worked at the front lines of psychic life and war from various stances Set at a point of tension and contradiction they illustrate the paradoxical relation of psychoanalysis as both a site of resistance and healing and a necessary aspect of warmaking propaganda and militarism In doing so we venture from the home front from the trauma of returning veterans to the APA s own complicity in CIA black sites across international borders from the treatment of women in Latin American dictatorships to the resistance to occupation in Palestine from mind control to an ethics of responsibility Throughout a psychoanalytic sensibility deconstructs the very opposition that it inhabits and seeks to reestablish psychoanalysis as the healing discipline it was conceived to be **Doughboys on the Great War** Edward A. Gutiérrez,2017-01-20 It is impossible to reproduce the state of mind of the men who waged war in 1917 and 1918 Edward Coffman wrote in The War to End All Wars In Doughboys on the Great War the voices of thousands of servicemen say

otherwise The majority of soldiers from the American Expeditionary Forces returned from Europe in 1919 Where many were simply asked for basic data veterans from four states Utah Minnesota Connecticut and Virginia were given questionnaires soliciting additional information and remarks Drawing on these questionnaires completed while memories were still fresh this book presents a chorus of soldiers voices speaking directly of the expectations motivations and experiences as infantrymen on the Western Front in World War I What was it like to kill or maim German soldiers To see friends killed or maimed by the enemy To return home after experiencing such violence Again and again soldiers wrestle with questions like these putting into words what only they can tell They also reflect on why they volunteered why they fought what their training was and how ill prepared they were for what they found overseas They describe how they interacted with the civilian populations in England and France how they saw the rewards and frustrations of occupation duty when they desperately wanted to go home and perhaps most significantly what it all added up to in the end Together their responses create a vivid and nuanced group portrait of the soldiers who fought with the American Expeditionary Forces on the battlefields of Aisne Marne Argonne Forest Belleau Wood Chateau Thierry the Marne Metz Meuse Argonne St Mihiel Sedan and Verdun during the First World War The picture that emerges is often at odds with the popular notion of the disillusioned doughboy Though hardened and harrowed by combat the veteran heard here is for the most part proud of his service service undertaken for duty honor and country In short a hundred years later the doughboy once more speaks in his own true voice
