Mind Beyond Brain David E. Presti, 2018-10-02 Among the most profound questions we confront are the nature of what and who we are as conscious beings and how the human mind relates to the rest of what we consider reality For millennia philosophers scientists and religious thinkers have attempted answers perhaps none more meaningful today than those offered by neuroscience and by Buddhism The encounter between these two worldviews has spurred ongoing conversations about what science and Buddhism can teach each other about mind and reality In *Mind Beyond Brain* the neuroscientist David E Presti with the assistance of other distinguished researchers explores how evidence for anomalous phenomena such as near death experiences apparent memories of past lives apparitions experiences associated with death and other so called psi or paranormal phenomena including telepathy clairvoyance and precognition can influence the Buddhism science conversation Presti describes the extensive but frequently unacknowledged history of scientific investigation into these phenomena demonstrating its relevance to questions about consciousness and reality The new perspectives opened up if we are willing to take evidence of such often off limits topics seriously offer significant challenges to dominant explanatory paradigms and raise the prospect that we may be poised for truly revolutionary developments in the scientific investigation of mind *Mind Beyond Brain* represents the next level in the science and Buddhism dialogue

Discourses on the Edges of Life Vicent Salvador, Adéla Kotátková, Ignasi Clemente, 2020-04-15 Death inhabits our collective imaginary even though sometimes like a squatter it hides discretely in order to avoid conflicts It is undoubtedly a multi faceted subject of study which requires consideration from an interdisciplinary perspective This book deals with this phenomenon and more specifically with the discourses that surround

and construct our perspectives and understanding of death and dying Of course the present volume does not attempt to be exhaustive and considers the subject from several standpoints including linguistics anthropology history of medicine and importantly literary studies It combines various points of view and different methodologies of knowledge in the hope that they come together to constitute a written dialogue or more precisely a polylogue The ordering of the texts in this volume provides readers with an itinerary that begins with more general approaches such as a historical presentation of the medicalisation of death and an in depth reflection on the best way to die and ends with studies of specific literary works from different periods The itinerary that this book provides is framed by a discourse analysis based overview that explores how different approaches to death and dying intersect and complement each other in an interdisciplinary endeavour This analysis focuses on literary and non literary genres in order to shed some new light on a topic that is inexhaustible because of its sociocultural relevance

Buddhism beyond Gender Rita M. Gross, 2018-03-27 A bold and provocative work from the late preeminent feminist scholar which challenges men and women alike to free themselves from attachment to gender At the heart of Buddhism is the notion of egolessness forgetting the self as the path to awakening In fact attachment to views of any kind only leads to more suffering for ourselves and others And what has a greater hold on people's imaginations or limits them more asks Rita Gross than ideas about biological sex and what she calls the prison of gender roles Yet if clinging to gender identity does indeed create obstacles for us why does the prison of gender roles remain so inescapable Gross uses the lenses of Buddhist philosophy to deconstruct the powerful concept of gender and its impact on our lives In revealing the inadequacies involved in clinging to gender identity she illuminates the suffering that results from clinging to any kind of identity at all

With Or Without God, Life's Mysteries Continue Ruminations on God, Life, Death, Spirits, Reincarnation and the Future of Humankind Sondlo Leonard Mhlaba, PhD, 2010 Sooner or later we all face the questions explored in *With or Without God Life's Mysteries Continue* questions about the purpose of life human mortality spirituality God and life beyond the grave The title conveys the author's tentativeness perhaps humility There are no postulates here no truths to be revealed These are ruminations What makes these ruminations notable is that they are those of a man who in his own words has traversed centuries of human experience in 66 years and in the process acquired a unique perspective on life and nature Mhlaba grew up in Zimbabwe in what he calls a pre modern age He has lived in fear of spooks and ghosts worshipping ancestral spirits and was subject to the tyranny of witches and the machinations of unseen forces He could have easily remained in that life as his forebears had done before him Fortunately his parents understood that he and his siblings would live much of their lives in a changed world and prepared them through education The book ends with a fascinating look into the future of humankind taking the reader through uncharted territory and a new sense of awe about the meaning of life and what may lie beyond Mhlaba went on to earn a Ph D and taught physics and mathematics at university level He now lives in Newton Massachusetts with his wife Nancy They have four grown children Mhlaba is currently writing a book on

Lotus Girl Helen Tworkov,2024-04-16 From one of the central figures in Buddhism s introduction to the West and the founder of Tricycle magazine comes a brilliant memoir of forging one s own path that Pico Iyer calls unflinching and indispensable The daughter of an artist Helen Tworkov grew up in the heady climate of the New York School of Abstract Expressionism yet from an early age she questioned the value of Western cultural norms Her life was forever changed when she saw the iconic photo of Thich Quang Duc the Vietnamese monk who seated in meditation set himself on fire to protest his government s crackdown on the Buddhist clergy Tworkov realized that radically different states of mind truly existed and were worth exploring At the age of twenty two she set off for Japan then traveled through Cambodia India and eventually to Tibetan refugee camps in Nepal Set against the arresting cultural backdrop of the sixties and their legacy this intimate self portrait depicts Tworkov s search for a true home as she interacts with renowned artists and spiritual luminaries including the Dalai Lama Pema Chodron Joseph Goldstein Bernie Glassman Charles Mingus Elizabeth Murray and Richard Serra Interweaving experience research and revelation Helen Tworkov explores the relationship between Buddhist wisdom and American values presenting a wholly unique look at the developing landscape of Buddhism in the West Lotus Girl offers insight not only into Tworkov s own search for the truth but into the ways each of us can better understand and transform ourselves Rebirth in Early Buddhism and Current Research Bhikkhu Analayo,2018-04-23 Join a rigorous scholar and

Buddhist monk on a brisk tour of rebirth from ancient doctrine to contemporary debates German Buddhist monk and university professor Bhikkhu Analayo had not given much attention to the topic of rebirth before some friends asked him to explore the treatment of the issue in early Buddhist texts This succinct volume presents his findings approaching the topic from four directions The first chapter examines the doctrine of rebirth as it is presented in the earliest Buddhist sources and the way it relates to core doctrinal principles The second chapter reviews debates about rebirth throughout Buddhist history and up to modern times noting the role of confirmation bias in evaluation of evidence Chapter 3 reviews the merits of current research on rebirth including near death experience past life regression and children who recall previous lives The chapter concludes with an examination of xenoglossy the ability to speak languages one has not learned previously and chapter 4 examines the particular case of Dhammaruwan a Sri Lankan boy who chants Pali texts that he does not appear to have learned in his present life Rebirth in Early Buddhism and Current Research brings together the many strands of the debate on rebirth in one place making it both comprehensive and compact It is not a polemic but an interrogation of the evidence and it leaves readers to come to their own conclusions
