Helgeson,2009-06-01 Audit now there s a word that can strike terror into your heart Whether it s the IRS looking over your shoulder or a quality tool utilized by your company it requires accountability A software audit monitors the development process and provides management with an independent view of the software development status The purpose of this book is to remove the terror and error while improving the audit process Software is not produced on a production line the only thing that is the same on all software projects is that there is input and output Everything in the middle is customized for the project at hand Thus The Software Audit Guide does not contain a one size fits all approach It gives a choice of areas to audit and different questions that should be asked within these areas This book provides a flexible user friendly checklist of more than 1 300 questions designed to stimulate creative thinking that will ultimately result in the best possible software audit Companies We Keep John Abrams,2008-11-08 Part memoir and part examination of a new business model the 2005 release of The Company We Keep marked the debut of an important new voice in the literature of American business Now in Companies We Keep the revised and expanded edition of his 2005 work John Abrams further develops his idea that companies flourish when they become centers of interdependence or communities of enterprise Thoroughly revised with an expanded focus on employee ownership and workplace democracy Companies We Keep celebrates the idea that when employees share in the rewards as well as the responsibility for the decisions they make better decisions result This is an especially timely topic Most of the baby boomer generation the owners of millions of American businesses will retire within the next two decades In 2001 50 000 businesses changed hands In 2005 that number rose to 350 000 Projections call for 750 000 ownership transitions in 2009 Employee ownership in both the philosophical and the practical sense is gathering steam as businesses change hands and Abrams examines some of the many ways this is done Companies We Keep is structured around eight principles from Sharing Ownership and Cultivating Workplace Democracy to Thinking Like Cathedral Builders and Committing to the Business of Place that Abrams has discovered in the 32 years since he cofounded South Mountain Company on the island of Martha s Vineyard Together these principles reveal communities of enterprise as a potent force of change that can and will improve the way Americans do business **Horizons** ,1983 NBS Special Publication ,1978 **Practicing Sustainability** Guru Madhavan,Barbara Oakley,David Green,David Koon,Penny Low,2012-10-19 Sustainability applies to everybody But everybody applies it differently by defining and shaping it differently much as water is edged and shaped by its container It is conceived in absolute terms but underpinned by a great diversity of

relatively green and sometimes contradictory practices that can each make society only more or less sustainable In Practicing Sustainability chefs poets music directors evangelical pastors skyscraper architects artists filmmakers as well as scientific leaders entrepreneurs educators business executives policy makers and the contrarians shed light on our understanding of sustainability and the role that each of us can play Each contributor addresses what sustainability means what is most appealing about the concept and what they would like to change to improve the perception and practice of sustainability What emerges from their essays is a wide spectrum of views that confirm an important insight Sustainability is pursued in different ways not only due to different interpretations but also because of varying incentives trade offs and altruistic motives Practicing and achieving sustainability starts with a willingness to look critically at the concept It also means enabling rich and vigorous discussion based on pragmatism and common sense to determine a framework for best ideas and practices With time and the much needed critical thinking sustainable development will become a more integral part of our culture By sharing experiences and crisp insights from today s savants Practicing Sustainability serves as a stepping stone to the future
