Business Models for Sustainability Transitions

Annabeth Aagaard, Florian Lüdeke-Freund, Peter Wells, 2021-11-11 Can innovations in business change society Can innovations in society change business These two questions have become critically urgent in recent years but are rarely considered together Business Models for Sustainability Transitions therefore asks can contemplating both concepts together result in a flourishing sustainable future Technology alone cannot save us We cannot consciously consume our way out of trouble This book represents a start at bridging the dynamic world of business model innovation with the constant and unprecedented transitions underway in the world around us For researchers practitioners and policy makers the coupling of the two questions has the potential to unlock answers to our grand global challenges with responses that are at the same time rapid and enduring This work offers unique and considered glimpses into what it may take to harness wide ranging innovations for the collective good [Handbook on Electricity Markets](#) Glachant, Jean-Michel, Joskow, Paul L., Pollitt,

Shoshana Zuboff, 2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF THE YEAR ONE OF BARACK OBAMA'S TOP BOOKS OF THE YEAR Shortlisted for The Orwell Prize 2020 Shortlisted for the FT Business Book of the Year Award 2019 Easily the most important book to be published this century I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas Zadie Smith The Guardian The challenges to humanity posed by the digital future the first detailed examination of the unprecedented form of power called

surveillance capitalism and the quest by powerful corporations to predict and control us The heady optimism of the Internet's early days is gone Technologies that were meant to liberate us have deepened inequality and stoked divisions Tech companies gather our information online and sell it to the highest bidder whether government or retailer Profits now depend not only on predicting our behaviour but modifying it too How will this fusion of capitalism and the digital shape our values and define our future Shoshana Zuboff shows that we are at a crossroads We still have the power to decide what kind of world we want to live in and what we decide now will shape the rest of the century Our choices allow technology to enrich the few and impoverish the many or harness it and distribute its benefits The Age of Surveillance Capitalism is a deeply reasoned examination of the threat of unprecedented power free from democratic oversight As it explores this new capitalism's impact on society politics business and technology it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization Most critically it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves
