The Anxiety Relief Program Dennis Radha-Rose, 2004-07-01 You can t stop the waves of anxiety but you can learn to ride them Everybody has anxiety in the face of threats and dangers and this is a perfectly natural reaction But sometimes anxiety or a particular worry can get out of control and develop into chronic and excessive worry panic attacks phobia obsession or other forms of anxiety disorder In this book each of these anxiety disorders is described from the point of view of the reader who experiences them rather than from that of psychologists or neurophysiologists whose explanations of how the brain functions in anxiety are not usually helpful to the sufferer You will gain insight into your own personal anxiety problems and learn how to cope with them yourself without medication by carrying out exercises selected for their effectiveness With an understanding of your anxieties and with the help of questionnaires you will create a personal program to bring anxiety under control Return to Equilibrium George W.
