Live Like You Give a Damn! Tom Sine, 2016-04-05 Live Like You Give a Damn declares the very good news that God is raising up a new generation largely outside the church to bring impressive change to the lives of our neighbors locally and globally by creating innovative forms of social enterprise and community empowerment The even better news is that those of us within the church can join this changemaking celebration and discover creative new ways God can use our mustard seeds to make a more remarkable difference than we ever imagined possible In this book Tom Sine offers practical ways you can

join those who are creating their best communities their best world and in the process their best lives Sine shows that in a world changing at warp speed following Jesus is a design opportunity It is not only an opportunity to design innovative ways to make a difference but also an opportunity to create lives with a difference in the way of Jesus that are simpler and more sustainable and to throw better parties along the way Why would anyone want to settle for less and miss the best **WTF?** Tim O'Reilly, 2017-10-10 Can we master the technologies we create before they master us A punchy and provocative assessment by one of Silicon Valley's sharpest observers Financial Times WTF can be an expression of amazement or of dismay and today's technology elicits both reactions In this book Tim O'Reilly dubbed the Oracle of Silicon Valley by Inc magazine explores the upsides and potential downsides of today's WTF technologies What is the future when an increasing number of jobs can be performed by intelligent machines instead of people or done only by people in partnership with those machines What happens to our consumer based societies to workers and the companies that depend on their purchasing power Is income inequality and unemployment an inevitable consequence of technological advancement or are there paths to a better future What will happen to business when technology enabled networks and marketplaces are better at deploying talent than traditional companies How should companies organize themselves to take advantage of these new tools What's the future of education when on demand learning outperforms traditional institutions How can individuals adapt and retrain Will the fundamental social safety nets of the developed world survive the transition and if not what will replace them O'Reilly is the man who can really make a whole industry happen according to former Google CEO Eric Schmidt and for decades he's identified and helped shape our response to emerging technologies with world shaking potential from the World Wide Web to Big Data and AI Here he shares the techniques he's used at O'Reilly Media to anticipate innovation waves and provides a framework for thinking about how current innovations are changing the nature of business education government financial markets and the economy as a whole He helps us understand how the parts of digital businesses work together to create marketplace advantage and customer value and why ultimately they cannot succeed unless their ecosystem succeeds along with them O'Reilly exhorts businesses to DO MORE with technology rather than just using it to cut costs and enrich their shareholders Robots are going to take our jobs they say O'Reilly replies Only if that's what we ask them to do Technology is the solution to human problems and we won't run out of work till we run out of problems Whether technology brings the WTF of wonder or the WTF of dismay isn't inevitable It's up to us A compelling narrative of how technology interweaves with the real world If it can cajole even a few tech titans to dwell on the social and political impact of what they do then it will have served a useful purpose Financial Times WTF is a book about technology as it was as it is and as it could be It is told from the perspective of someone who has been personally present at the most important moments in the fast paced history of tech and who played a significant role in those moments Please do read this book Cory Doctorow Boing Boing *Editor & Publisher*, 1953 Special features such as syndicate directories annual newspaper lineage tabulations etc
