Multinationals, Governments and International Technology Transfer (RLE International Business) Edward Safarian, Gilles Bertin, 2013-05-07 This book examines the international technology transfer process and the role of both multinationals and host country governments in that process with emphasis on the experience of the more developed countries It explores a range of issues and presents much original thinking and research findings It discusses in particular the strategies of the multinationals assessing how far they are willing to accept technology transfer to external partners as opposed to subsidiaries which they can control It also examines how far technical transfers are successful from the viewpoint of the firm and countries involved arguing that governments are most likely to succeed in attracting multinational transfers if they are aware of and accommodate to some degree multinationals preferences *Multinational Enterprises and Government Intervention (RLE International Business)* Thomas Poynter, 2013-01-04 Government intervention can reduce the profits of multinational enterprises These interventions also increase uncertainty and risk and distort trading and intra firm sourcing patterns The focus of this book is a corporate survival plan that describes how a multinational can monitor its exposure to intervention and then seek to reduce it It reports on the successes and failures of firms as they implement various global management systems and recommends a general strategy Such a strategy will allow multinationals to continue foreign investment with the longer term horizons that will benefit both the firms and their host countries **Transaction Costs & Trade Between Multinational Corporations (RLE International Business)** C Hallwood, 2013-01-04 Until this book was published little had appeared on the matter of the organization of production in oil gathering This book Describes the global offshore oil supply industry and its features on one of the world s major offshore oil services bases Draws on the theory of the multinational corporation to explain why buyers and sellers should have internationalized themselves into a symbiotic relationship Discusses the preference of the oil companies for vertical disintegration Explains the transaction cost paradigm Integrates the largely American literature on the transaction cost paradigm with the literature on the multinational corporation which is largely British *Multinationals, Governments, and International Technology Transfer* A. E. Safarian, Gilles Y. Bertin, 2013 This book examines the international technology transfer process and the role of both multinationals and host country governments in that process with emphasis on the experience of the more developed countries It explores a range of issues and presents much original thinking and research findings It discusses in particular the strategies of the multinationals assessing how far they are willing to accept technology transfer to external partners as opposed to subsidiaries which they can control It also examines how far technical transfers are successful from the viewpoint of the firm a **Japanese Multinationals (RLE International Business)** Nigel Campbell, Fred Burton, 2013-01-04 International in perspective this volume provides insights into the important problem of how to transfer Japanese practice to Western countries It also examines key aspects of Japanese multinationals and discusses how they are developing their global

strategies and how they are managing their local workforces Topics covered include relations with suppliers governments and competitors leadership patterns and business philosophy The impact of Japanese multinationals on the local economies of host countries is a particular focus The dynamics of strategic alliances technology transfers and research and development centres are also discussed *Multinationals, Technology and Competitiveness (RLE International Business)* John H.

Dunning, 2012-11-26 This book explores some aspects of the interface between technology competitiveness and the role of multinational enterprises in the world economy This group of essays stresses the role of asset creation and usage rather than reliance on natural factor endowments as a basis for national competitiveness and examines the role of multinational enterprises as vehicles for technological transfer and the efficient co ordination of economic activity across national boundaries *Governance of International Strategic Alliances (RLE International Business)* Joanne Oxley, 2013-01-04

International joint ventures and strategic alliances built on recent theoretical developments in Transaction Costs Economics TCE and the factors influencing the formation and governance of these alliances are examined in this analytical text By bringing rigorous empirical analysis to an arena which has largely been pursued through speculative and theoretical approaches this book will prove to be an insightful contribution to international business strategy and economics **Who**

Owns Whom , 2004 **The Multinational Enterprise (RLE International Business)** John Dunning, 2013-01-17 The book focuses on the major environmental implications stemming from the growth of the multinational enterprise in a multiple currency world the international transfer of technology industrial relations and labour utilization in foreign owned firms in the UK multinational companies and trade union interests foreign direct investment the balance of payments and trade flows the multinational enterprise and developing countries government policy alternatives and the problem of international sharing and a case study of a multinational enterprise in Europe A survey of the background to the multinational enterprise and concluding summaries ensure that this book is one of the most widely embracing volumes available on the subject

Nuclear Engineering International , 1995 *International Production and the Multinational Enterprise (RLE International Business)* John Dunning, 2013-03-05 The growth and impact of the multinational enterprise MNE in the post war period is one of the most important phenomena of our time This volume originally published in 1981 provides a comprehensive and detailed review of both the theoretical and policy issues at a time when the subject had reached a watershed after the controversies of the 1970s The book provides a balanced discussion of major themes such as the development of modern theories of international production the impact of the MNE on the nation state and the structure of the international market the response of governments and the appropriate framework for policy measures and the historical context and likely future of the MNE *Motivation and Support of R & D to Achieve National Goals* National Security
