In Crafting Writers K 6 Elizabeth Hale shows us how to identify specific elements of craft when assessing student work and planning instruction and use them to teach students the specific craft techniques that will move them forward as writers

Liz offers practical information that teachers can use immediately in their classrooms

She also presents a concrete process for noticing craft in writing so teachers can develop and plan craft lessons based on their students writing

Learning the techniques that make up good writing also allows teachers to see craft in many different levels of writing a skill that is particularly powerful when conferring with below grade level writers

Additional chapters look closely at assessment and classroom management practices like group conferring
