Chemistry Biology and Computer Science each divided into number of chapters as per the syllabi of General Science section asked in various competitive exams The Physics section covers Motion Force Laws of Motion Gravitation Work Energy Power Simple Harmonic Motion Wave Motion Light Ray Optics Current Electricity Its Effects Nuclear Physics Semiconductor Communication etc whereas the Chemistry section has been divided into Atomic Structure Chemical Reactions Chemical Bonding Solutions Colloids Energetics Kinetics Electrochemistry Metallurgy Metals Their Compounds Flame Fuel Food Chemistry etc The Biology section in the book covers Biology Its Branches Cell Structure Functions Cell Cycle Cell Division Plant Tissues Animal Nutrition Plant System Reproduction in Organisms Respiratory System Excretory System Reproductive System Genetics Biotechnology Animal Husbandry etc whereas the Computer Awareness section has been divided into Computer Organisation Memory Data Representation Software Data Communication Networking and Internet Computer Security The chapters in the book contain more than 100 tables which will help in better summarization of the important information Each chapter in the book contains ample number of objective questions ample number of objective questions including questions asked in previous years exams which have been designed on the lines of questions asked in various competitive examinations With a collection of more than 5000 highly useful questions the content covered in the book tries to simplify the complexities of some of the topics so that non science students feel no difficulty while studying general science Also hints and solutions to the difficult questions have been provided in the book As the book thoroughly covers the General Science section asked in a number of competitive examinations it for sure will work as a preparation booster for various competitive examinations like UPSC State Level PSCs Examinations SSC CDS NDA CISF and other general competitive recruitment examinations

Basic Concepts of Plant Biotechnology (With MCQ's) V. Prakash, N. Tripathi, 2018-10-01 The book entitled Basic Concepts of Plant Biotechnology with MCQs has been publishing when the recombinant DNA and sequencing of human and many plant genomes have been completed This book contains almost 3000 multiple choice questions as well as fill in the blanks with answers covering all aspects of molecular biological systems of prokaryotes and eukaryotes In writing the first edition the aim is to provide all simple and difficult questions for weak students in plant molecular biology that have no more knowledge and have more problems in solving the questions Therefore in this book we included questions belongs to all basic concept of molecular biology which will provide strong knowledge to students preparing for competitive exams of life science like CSIR NET DBT JRF ICMR JRF ICAR NET ARS PSC graduate and post graduate exams

Objective Genetics, Biotechnology, Biochemistry and Forestry Vijay K. Khanna, 2013-12-30 The present book has been designed to serve the students of Plant Breeding Genetics Biotechnology Biochemistry and Forestry In most of the books the objective type questions judge the students on the basis of their ability to memorize because of the way they are formulated It is important to be able to remember the year of historical events the scientists involved and who named what to make one remember the landmark contributions of the people on a particular subject Along with these kinds

of questions majority of the questions in this book have been designed to assess the candidate s understanding of the subject It is perhaps for the first time where questions have four to six choice statements which are to be understood to find the right answer One has to think and remember what he has learnt to be able to answer these questions There are some books on objective type questions on the subject of Plant Breeding and a very few on Genetics but there is hardly any book which deals with Tissue Culture Biotechnology Biochemistry or Forestry All these subjects are related as many postgraduate students of Genetics and Plant Breeding take Biotechnology as a minor subject whereas those of Biotechnology take Biochemistry or Genetics and Plant Breeding as a minor subject Also undergraduates in agricultural universities study courses on all these subjects including Forestry

MCQs Biology Daman Saluja, Saluja, 2013-12-30 This book has been divided in 18 chapters for convenient understanding It also includes solved model test papers of the previous three years of AIIMS CBSE PMT and CPMT UP to enable students to develop the skills of problem solving and time management essential for any entrance examination In addition to providing answers to all the questions detailed explanatory notes to selected difficult question have also been provided to justify the answer A separate section of Assertion and Reasons is also provided Exhaustive Question Bank Explanatory Notes and Hints Assertions Reasons Includes Pre solved papers of three years Models Test Papers of AIIMS CBSE PMT CPMT
