Muscular Metal Musicians:

A Dictionary of Music and Musicians George Grove, 1879* **A Dictionary of Music and Musicians (A.D. 1450-1880) by Eminent Writers, English and Foreign** George Grove, 1880 *Ethnomusicology* Jennifer C. Post, 2013-09-05

Ethnomusicology A Contemporary Reader is designed to supplement a textbook for an introductory course in ethnomusicology. It offers a cross section of the best new writing in the field from the last 15-20 years. Many instructors supplement textbook readings and listening assignments with scholarly articles that provide more in-depth information on geographic regions and topics and introduce issues that can facilitate class or small group discussion. These sources serve other purposes as well: they exemplify research technique and format and serve as models for the use of academic language and collectively they can also illustrate the range of ethnographic method and analytical style in the discipline of ethnomusicology. *Ethnomusicology A Contemporary Reader* serves as a basic introduction to the best writing in the field for students, professors, and music professionals. It is perfect for both introductory and upper-level courses in world music.

The Muscle Shoals Legacy of FAME Blake Ellis, 2015-06-29 FAME Publishing first opened in 1959 and produced hits for great musicians like Etta James, Clarence Carter, and Aretha Franklin. Not long after the city of Muscle Shoals became known as the Hit Recording Capital of the World, FAME was the foundation that produced Muscle Shoals Sound Studio, the Nutthouse, and Sundrop Sound at Single Lock Records studios that gave a voice to artists like Drive-By Truckers, Jason Isbell, and the 400 Unit, and John Paul White. A new generation including the Polliwogs and Doc Dailey, the Magnolia Devil, today carries the tradition of great music. Through extensive research and enriched with interviews from those who lived it, local author Blake Ellis chronicles the epic story that started with FAME. **In Which Direction is Music Heading? Cultural and Cognitive Studies in Turkey** Firat Kutluk, Ugur Turkmen, 2015-09-18 This book offers a range of trajectories of academic thought and musical practice in Turkey. It adopts a multidisciplinary approach with chapters exploring the question posed by its title from the perspectives of ethnomusicology, historical musicology, neurology, psychology, social science, gender studies, acoustics, and linguistics. Some studies are experimental and scientific in nature, ranging from a focus on tonality using EEG to investigate differences in the cognitive responses of musicians and non-musicians listening to tonal and atonal chords to an examination of brain activation in response to reverberation time differences resulting from room acoustics. Another essay assesses the psychometric properties and effectiveness of the new Turkish version of the Music Performance Anxiety Inventory for Adolescents (MPAI-A), designed to survey performance anxiety and determine its severity in adolescent musicians. On a completely different tack, two studies investigate Turkey's heavy metal scene. The first explores the social forces propelling the moral panic over Satanism and heavy metal generated by the national press in response to a gory murder in the 1990s. Through field interviews, this study examines the impact of this on the public perception and stereotypes of metal fans and its effects on the fans themselves. The second contribution examines gender codes within the global extreme metal

scene looking specifically at the barriers faced and overcome by female Turkish extreme metal musicians Setting Turkish music practices today in their historical context a further contribution offers a critical appraisal of the mission to contemporize music expounded though ineffectually carried out by the founding ideologies of Early Republican Turkey A similar chapter discusses how even Anatolian folk music when examined more closely caused consternation looking at the change in the Turkish state's attitude towards the multicultural structure of Anatolia during the last decade The final article in this volume focuses on how Turkish musicians use the term *sound* the English word as borrowed in Turkish to discuss elements of music Beyond the physical meaning of the word the essay explores the ways the word is used by musicians to describe the timbre of instruments the production quality of recordings the application of music technology the aural aesthetics of an album and the distinctive and unique elements of an artist's performance

Seeing Depression Through a Cultural Lens Barry S. Fogel, Xiaoling Jiang, 2024-11-26 Depression is a leading cause of suffering and disability worldwide and suicide is a leading cause of death in younger people and a remarkably common cause of mortality in older people *Seeing Depression Through a Cultural Lens* the collaborative work of a neuropsychiatrist and a tricultural humanities scholar explores broadly and deeply how cultural identity and its structural correlates relate to the occurrence phenomenology and narratives of depression The book synthesizes qualitative and quantitative perspectives theory and practice salient statistics and memorable stories from literature film and the clinic It offers readers valuable new perspectives on depression in diverse individuals and populations
