

Music Theory For Dummies

From Music Theory For Dummies by Michael Pilhofer, Holly Day
Music Theory Begins with these basics: Reading notes on the keyboard and staff, note and rest values, and key signatures, note values, and the circle of fifths. And, as two inextricably linked musical tools, and you need to know how to read both.

Reading Music: Note Names on the Keyboard and in the Staff

If you get these notes into your head, you'll go a long way toward reading music and understanding music theory. Here's how to do it.

Get to Know Music Note Names

Using the musical alphabet, you can remember the order of the notes, or use these tips: The notes on the lines of the treble clef can be memorized using this mnemonic: *Every Good Boy*. The notes on the spaces of the bass clef can be memorized using this mnemonic: *All Cows Eat Grass*.

The notes on the spaces of the treble clef can be memorized using this mnemonic: *FACE*.

The notes on the lines of the bass clef can be memorized using this mnemonic: *Go Buy Donuts For Aardvark*.

The notes on the spaces of the bass clef can be memorized using this mnemonic: *All Cows Eat Grass*.

Note and Rest Values in Music

In music, every beat of every measure needs to be accounted for. Note and rest values signal the relative duration of notes and rests. Here's how to do it.

The following diagram shows the relationships between the time values of notes. At the top is the whole note. Below it are two half notes. Below those are four quarter notes, then eight eighth notes, and sixteen sixteenth notes. As you go down, each level of the diagram represents the same number of beats, chopped up more and more into smaller kinds of notes.

The following diagram shows the relationships of the time values of rests. Each rest in this diagram is whole, half, quarter, eighth, and sixteenth. Each rest in this diagram is the same as the notes, only they're rests instead.

Time Signatures in Music

At the beginning of a piece of music, you'll see a figure that looks like a fraction. This is called a time signature. The top number tells you how many beats are in a measure. The bottom number tells you what note gets one beat. Common time signatures include 2/4, 3/4, 4/4, and 6/8.

Music's Circle of Fifths in Brief

The relationship between major keys and their relative minors is shown in the Circle of Fifths. The circle shows the key signature of each major key and its relative minor key. The circle also shows the key signature of each minor key and its relative major key.

Understanding Key Signatures in Music

Key signatures tell you what key a piece of music is in. You can refer to the Circle of Fifths or use this guide to figure out the key signature of a piece of music. The key signature of a piece of music always appears in the key signature.

Sharp signs appear in this order: F, C, G, D, A, E, B.

Flat signs appear in this order: B, E, A, D, G, C, F.

If the Key Signature Has....	This Major Key...	...or This minor Key
1 sharp	F	D
1 flat	D	Bb
2 sharps	C	G
2 flats	G	F
3 sharps	A	E
3 flats	E	Bb
4 sharps	B	F#
4 flats	F	Cb
5 flats, 2 sharps	C#	G#
6 flats, 3 sharps	F#	C#
7 flats, 5 sharps	Bb	Fb
