New Mansions For Music Lakshmi Subramanian, 2017-08-10 The essays in *New Mansions for Music* Performance Pedagogy and Criticism look at one of the most ancient and rigorous classical musical traditions of India the Karnatik music system and the kind of changes it underwent once it was relocated from traditional spaces of temples and salons to the public domain Nineteenth century Madras led the way in the transformation that Karnatik music underwent as it encountered the forces of modernization and standardization This study also contributes to our understanding of the experience of modernity in India through the prism of music The role of Madras city as patron and custodian of the performing arts especially classical music offers an invaluable perspective on the larger processes of modernization in India As the title suggests the areas of classical music which were most influenced by these developments

were pedagogy or modes of musical transmission performance conventions and criticism or music appreciation Once the urban elite demanded the widening of the teaching of classical music traditional modes of music instruction underwent a major change involving a breakdown of the gurushishya parampara or the tradition wherein the teacher imparted knowledge to a chosen few Caste and kinship were important determining factors for the selection of these shishyas or students but in modern institutions like the universities these boundaries had to be demolished Simultaneously the public staging of music brought the performer into a new relationship with his audience especially as the art form became subject to validation and criticism by the newly emerging music critic In an immensely readable book peppered with anecdotes and conversations with leading musicians and critics of the day as well as humorous visual representations part caricature part satirical the author describes a rapidly changing society and its new look in early twentieth century Madras *Conceptualizing Music* Lawrence M. Zbikowski, 2002-11-14 This book shows how recent work in cognitive science especially that developed by cognitive linguists and cognitive psychologists can be used to explain how we understand music The book focuses on three cognitive processes categorization cross domain mapping and the use of conceptual models and explores the part these play in theories of musical organization The first part of the book provides a detailed overview of the relevant work in cognitive science framed around specific musical examples The second part brings this perspective to bear on a number of issues with which music scholarship has often been occupied including the emergence of musical syntax and its relationship to musical semiosis the problem of musical ontology the relationship between words and music in songs and conceptions of musical form and musical hierarchy The book will be of interest to music theorists musicologists and ethnomusicologists as well as those with a professional or avocational interest in the application of work in cognitive science to humanistic principles

Music Theory in Ethnomusicology Stephen Blum, 2023-04-28 Music Theory in Ethnomusicology outlines a conception of music theory suited to cross cultural research on musical practices assessing the extent to which musical terminologies of diverse languages can be interpreted in relation to general concepts without imposing the assumptions and biases of one body of existing theory **Ethnomusicology** Jennifer Post, 2013-03-01 Ethnomusicology A Research and Information Guide is an annotated bibliography to books recordings videos and websites in the field of ethnomusicology The book is divided into two parts Part One is organized by resource type in categories of greatest concern to students and scholars It includes handbooks and guides encyclopedias and dictionaries indexes and bibliographies journals media sources and archives It also offers annotated entries on the basic literature of ethnomusicological history and research Part Two provides a list of current publications in the field that are widely used by ethnomusicologists Multiply indexed this book serves as an excellent tool for librarians researchers and scholars in sorting through the massive amount of new material that has appeared in the field over the last decades **Tellings and Texts** Francesca Orsini, Katherine Butler Schofield, 2015-10-05 Examining materials from early modern and contemporary North India and Pakistan Tellings and Texts brings together seventeen first rate papers

on the relations between written and oral texts their performance and the musical traditions these performances have entailed The contributions from some of the best scholars in the field cover a wide range of literary genres and social and cultural contexts across the region The texts and practices are contextualized in relation to the broader social and political background in which they emerged showing how religious affiliations caste dynamics and political concerns played a role in shaping social identities as well as aesthetic sensibilities By doing so this book sheds light into theoretical issues of more general significance such as textual versus oral norms the features of oral performance and improvisation the role of the text in performance the aesthetics and social dimension of performance the significance of space in performance history and important considerations on repertoires of story telling The book also contains links to audio files of some of the works discussed in the text Tellings and Texts is essential reading for anyone with an interest in South Asian culture and more generally in the theory and practice of oral literature performance and story telling **Focus: Music, Nationalism, and the Making of a New Europe** Philip V. Bohlman, 2010-09-13 Focus Music Nationalism and the Making of the New Europe surveys the intersection of music and nationalism by tracing its historical development and documenting its persistence today Contrasting different types of music reveals how music expresses core ideas of nationalism for example folk music in the nineteenth century and popular music in the twenty first Analytical Studies in World Music Michael Tenzer, 2006-05-25 Combining the approaches of ethnomusicology and music theory Analytical Studies in World Music offers fresh perspectives for thinking about how musical sounds are shaped arranged and composed by their diverse makers worldwide Eleven inspired insightful and in depth explanations of Iranian sung poetry Javanese and Balinese gamelan music Afro Cuban drumming flamenco modern American chamber music and a wealth of other genres create a border erasing compendium of ingenious music analyses Selections on the companion website are carefully matched with extensive transcriptions and illuminating diagrams in every chapter Opening rich cross cultural perspectives on music this volume addresses the practical needs of students and scholars in the contemporary world of fusions contact borrowing and curiosity about music everywhere **Singing a Hindu Nation** Anna Schultz, 2013-01-10 Singing a Hindu Nation is a study of ranullnullriya kirtan a western Indian performance medium that combines song Hindu philosophical discourse and nationalist storytelling Beginning during the anti colonial movement of the late nineteenth century performers of ranullnullriya kirtan led masses of Marathi speaking people in temples and streets and they have continued to preach and sing nationalism as devotion in the post colonial era and into the twenty first century In this book author Anna Schultz demonstrates how through this particular form of musical performance the political becomes devotional and explores why it motivates people to action and violence Through both historical and ethnographic studies Schultz shows that ranullnullriya kirtan has been especially successful in combining these two realms because kirtankars perform as representatives of the divine sage Narad thereby infusing their nationalist messages with ritual weight By speaking and singing in regional idioms with rich

associations for Maharashtrian congregations they use music to combine political and religious signs in ways that seem natural and desirable promoting embodied experiences of nationalist devotion As the first monograph on music and Hindu nationalism *Singing a Hindu Nation* presents a rare glimpse into the lives and performance worlds of nationalists on the margins of all India political parties and cultural organizations and is an essential resource for ethnomusicologists as well as scholars of South Asian studies religion and political theory

If All the World Were Paper Tyler W. Williams, 2024-10-01 How do writing and literacy reshape the ways a language and its literature are imagined If All the World Were Paper explores this question in the context of Hindi the most widely spoken language in Southern Asia and the fourth

most widely spoken language in the world today Emerging onto the literary scene of India in the mid fourteenth century the vernacular of Hindi quickly acquired a place alongside classical languages like Sanskrit and Persian as a medium of literature and scholarship The material and social processes through which it came to be written down and the particular form that it took as illustrated storybooks loose leaf textbooks personal notebooks and holy scriptures played a critical role in establishing Hindi as a language capable of transmitting poetry erudition and even revelation If All the World Were Paper combines close readings of literary and scholastic works with an examination of hundreds of handwritten books from precolonial India to tell the story of Hindi literature s development and reveal the relationships among ideologies of writing material practices and literary genres Tyler W Williams forcefully argues for a new approach to the literary archive demonstrating how the ways books were inscribed organized and used can tell us as much about their meaning and significance as the texts within them This book sets out a novel program for engaging with the archive of Hindi and of South Asian languages more broadly at a moment when much of that archive faces existential threats

The Making of European Music in the Long Eighteenth Century D R M Irving,2024 In this book author D R M Irving traces the emergence of such large scale categories as European music and Western music showing how they originate from self fashioning in contexts of intercultural comparison outside the European continent rather than the resolution of national aesthetic differences within it Taken as a whole this study demonstrates how reductive labels for the musics of a continent or a hemisphere often imply homogeneity and essentialism and how a renewed critique of primary sources can help dismantle historiographical constructs that arose within narratives of musical pasts involving Europe
