Fox, 2012-05-22 *Elephant's Kitchen An Aspergirl's Study in Difference* is about a quiet teenage girl named Delphine who has Asperger's but just as with the television shows *Bones* and *The Big Bang Theory* the condition is never mentioned Instead the story walks the reader through many of the markers of the condition The story also addresses the misery associated with poverty when it comes face to face with the haves of society and their obliviousness and callousness towards those who are struggling to survive Viewed by a teenage girl who volunteers at a church's charity kitchen it highlights the damage that such insensitivity can inflict upon the very people that such institutions claim to benefit This is just part of the backdrop of the story Delphine also attends a private school plays the violin acts in a play and deals with bullies She is quiet stealthy and effective in her own way This story was written to inspire teens with Asperger's to show them that there is nothing wrong or bad about them and to celebrate rather than condemn difference [Have Fun, Get Paid](#) Christopher Duncan, 2013-10-28 From performers who bask in the spotlight to those who find inspiration in the midnight glow of a computer monitor the world has no shortage of creative people While the day to day realities of a ballerina may be quite different from that of a novelist actor graphic artist musician or software developer they share many things in common Chief among these is the desire to make a living with their art Maybe you're working to build a sustainable full time creative career Or perhaps you're happy in the corporate world but would like to turn your love for music dance painting or programming into a steady stream of extra income Either way if you're like most creative souls you tend to focus on your passion to the exclusion of all else and you may scorn the details of business and promotion Yet as *Have Fun Get Paid How to Make a Living with Your Creativity* shows developing business skills couldn't be more important for those who want to achieve success and generate steady income from their work With decades of professional experience in creative fields such as music software writing and speaking bestselling author Christopher Duncan demystifies the path to getting paid for your artistic talents With

The Tao of Willie Willie Nelson, Turk Pipkin, 2006-05-09 National icon Willie Nelson has evolved over the years from country music outlaw swimming against a whiskey river to a Zen like figure of wisdom and contentment In this autobiographical collection of life advice one of America's truest hearts reveals the spiritual and practical lessons learned from decades of hard knocks and good bounces Born in small town Texas during the Great Depression Willie Nelson was raised to believe in helping his neighbors and living without pretense After many hardscrabble years as a poorly paid songwriter often watching his work become a gold mine for other performers Willie finally found his own voice the gentle but unmistakably honest sound that has made him an American icon With The Tao of Willie the master of harmonization has created a guide to finding harmony in everyday life Featuring vignettes from each chapter of his seventy plus years along with plenty of his favorite jokes The Tao of Willie captures his views on money love war religion cowboys and other essential Willie topics Loosely based on the

principles of the Chinese philosophy of the Tao Te Cheng which Willie has admired and followed for much of his adult life this inspiring and entertaining collection of Willie wisdom takes us from his roadhouse days when he united redneck rockers with straitlaced country music fans to the mega sized benefit concerts and environmentalism that define his boundless heart With stories that will make you both laugh out loud and look deep inside yourself Willie Nelson shows us how the Willie way and the way of the Tao can also be your way His timeless insights sparkle with clarity It s like having a one on one conversation with the sage himself In an Elephant's Rumble Sharon Pincott,2004 **Where Christ Is Present** John Warwick Montgomery, Gene Edward Veith,2015-06-01 Five hundred years ago the church of Jesus Christ underwent a Reformation A lot happened after Martin Luther posted his 95 theses on the castle church door in Wittenberg But the fallout was not simply the start of Protestantism The Roman Catholic Church also recast itself in response to Luther s call for reforms And contrary to common belief Martin Luther did not set out to start a new church Rather he was trying to reform the church that already existed by reemphasizing its essence namely the good news the gospel that Jesus forgives and saves sinners The unity of the church was broken when the pope rejected this call for reform and excommunicated Luther starting a chain of events that did lead to the institutional fracturing of Christendom and to a plethora of alternative Christian theologies But as many including conservative Catholics now admit the church did in fact need reforming Today the church including its Protestant branches also needs reforming Some of the issues in contemporary Christianity are very similar to those in the late Middle Ages though others are new But if Luther s theology can be blamed however unfairly for fragmenting Christianity perhaps today it can help us recover the wholeness of Christianity The religious climate in the early 21st century is simultaneously highly religious and highly secularized It is a time of extraordinary spiritual and theological diversity In the spirit of the anniversary we are observing this book will propose the kind of Christianity that is best suited for our day The remedies offered here are available by way of the same theology that was the catalyst for reforming the church five hundred years ago

Persons Peter van Inwagen, Dean Zimmerman,2007-01-25 The nature of persons is a perennial topic of debate in philosophy currently enjoying something of a revival In this volume for the first time metaphysical debates about the nature of human persons are brought together with related debates in philosophy of religion and theology Fifteen specially written essays explore idealist dualist and materialist views of persons discuss specifically Christian conceptions of the value of embodiment and address four central topics in philosophical theology incarnation resurrection original sin and the trinity
