Digital Pricing Frank Frohmann, 2023-03-03 This is one of the first books to combine the current megatrend of digitalization and pricing as the most effective lever for increasing and sustaining profits The book presents the basics of digital pricing as well as modeling methods and implementation examples This structure helps in tackling the latest developments and challenges due to digitalization Readers will gain a detailed insight into using innovative revenue and price models to generate a sustainable competitive advantage for their companies The author uses his cross industry experience to draw on several examples of innovative digital pricing approaches which can be applied in industrial sectors such as automotive industrial goods and machinery as well as service sectors like telecommunications transportation and tourism

Strategic and Innovative Pricing Mathias Cöster, Einar Iveroth, Nils-Göran Olve, Carl-Johan Petri, Alf Westelius, 2020-04-22 This book provides a concrete guide on how to execute strategic pricing to excel in an increasingly dynamic and digitised business environment while developing and deepening relations with contract partners The secret lies in crafting innovative price models that reward joint value creation in accordance with the business model rather than engaging in confrontative zero sum pricing reasoning Strategic and Innovative Pricing Price Models for a Digital Economy provides hands on tools that are applied on three interconnected levels of analysis It illustrates how to explore the business ecology to understand its dynamics and how digitisation enables it to prosper and demonstrates how to construct a viable business model that enables an organisation to navigate in its vibrant ecology Finally and most importantly it shows how to use innovative price models to realize and monetise the business model and its value offering making the organisation and its partnerships sustainable Models pertaining to the three levels of analyses are applied in rich case studies and examples from different countries and the book includes guidelines on how to use them Special attention is paid to digitisation as an underlying theme making this book of interest to researchers academics and students in the fields of strategic management and technology innovation management

Pricing Strategies Robert M. Schindler, 2023-02-04 Written by a leading pricing researcher this book provides a simple unified system for the setting and management of prices The pricing procedures described are grounded in basic research and are generally applicable over products situations and times The result is that students gain a deeper more generally useful understanding of this essential aspect of business The author demystifies the math necessary for making pricing decisions Using clear direct language he explains in detail how to apply expected value multiple regression price elasticity and generalized breakeven analysis to essential pricing tasks He uses a descriptive approach to explaining mathematical techniques so that formulas can be seen as simply more detailed specifications of intuitive ideas Used in dozens of college and MBA classes all over the world Pricing Strategies is now available in a second edition This revised edition includes updated examples and exercises as well as expanded coverage of topics such as freemium and in app pricing subscriptions tipping pay what you want pricing pricing algorithms and dynamic

pricing Robert M Schindler is a Professor of Marketing at Rutgers University USA *Price Management* Hermann Simon, Martin Fassnacht, 2018-12-11 In this book the world's foremost experts on pricing integrate theoretical rigor and practical application to present a comprehensive resource that covers all areas of the field This volume brings together quantitative and qualitative approaches and highlights the most current innovations in theory and practice Going beyond the traditional constraints of price theory and price policy the authors coined the term price management to represent a holistic approach to pricing strategy and tactical implementation They remind us that the Ancient Romans used one word pretium to mean both price and value This is the fundamental philosophy that drives successful price management where producer and customer meet Featuring dozens of examples and case studies drawn from their extensive research consulting and teaching around the world Simon and Fassnacht cover all aspects of pricing following the price management process with its four phases strategy analysis decision and implementation Thereby the authors take into account the nuances across industry sectors including consumer goods industrial products services and trade distribution In particular they address the implications of technological advancements such as the Internet and new measurement and sensor technologies that have led to a wealth of price management innovations such as flat rates freemium pay per use or pay what you want They also address the emergence of new price metrics Big Data applications two sided price systems negative prices and the sharing economy as well as emerging payment systems such as bitcoin The result is a bible for leaders who recognize that price is not only a means to drive profit in the short term but a tool to generate sustained growth in shareholder value over the longer term and a primer for researchers instructors and students alike Praise for Price Management This book is truly state of the art and the most comprehensive work in price management Prof Philip Kotler Kellogg School of Management Northwestern University This very important book builds an outstanding bridge between science and practice Kasper Rorsted CEO Adidas This book provides practical guidelines on value creation communication and management which is an imperative for businesses to survive in the coming era of uncertainty Dr Chang Gyu Hwang Chairman and CEO KT Corporation Korea Telecom **Global Meets Digital** Vinod Jain, 2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to

compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India's 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta
