i historical events and how they were experienced by Deaf people ii issues of identity and independence iii aspects of language change iv experiences of suppression and discrimination The stories shared by elderly signers reveal intriguing yet hidden aspects of Deaf life On the negative side these include experiences of the Deaf in Nazi Germany and occupied countries and harsh practices in educational settings to name a few On the positive side there are stories of resilience and vivid memories of school years and social and professional life In this way the volume contributes in a significant way to the preservation of the cultural and linguistic heritage of Deaf communities and sheds light on lesser known aspects against an otherwise familiar background This publication has been made possible within the SIGN HUB project which has received funding from the European Union's Horizon 2020 research and innovation programme
