

PUT MULTIPLES INTO PLAY QUICKLY

Maximize your plays by getting as many varied ranks revealed as possible.

The number of moves you can make depends on how varied the ranks are in the tableau. This tableau has a lot of multiples.

Moving the two from column 7 to column 2 and the three from column 5 to column 9 helped get the multiple threes taken care of.

This new three will be covered by the two and ace from column 8, which helps take care of the multiple twos and threes that were showing.

With new cards and new multiples, the seven in column 10 will move to column 5, and the seven in column 10 will be covered by the sequence from column 8.

Although a jack has moved onto the queen, two jacks are still open and need tens to cover them.
