The Comparison-Free Life Heather Creekmore, 2024-11-19 Comparison Free Life gives an updated title and look to Heather's fan favorite book *The Burden of Better*. Tired of chasing better. In an era of carefully curated social media images, nonstop selfies, and TV shows devoted to perfection, comparison can consume you. Chasing something better quickly becomes a burden weighing down your soul and preventing you from experiencing the freedom, contentment, and rest that God graciously offers. While other books on comparison call you to embrace uniqueness, *The Comparison Free Life* reveals how only a deeper understanding of God's grace can guide you off the self-improvement treadmill. Heather's humor and empathetic approach offer a gospel-centered guide to kicking your comparison habit.

The Intersection of Animation, Video Games, and Music Lisa Scoggin, Dana Plank, 2023-04-26 In both video games and animated films, worlds are constructed through a combination of animation, which defines what players see on the screen, and music and sound, which provide essential cues to action, emotion, and narrative. This book offers a rich exploration of the intersections between animation, video games, and music and sound, bringing together a range of multidisciplinary lenses. In 14 chapters, the contributors consider similarities and differences in how music and sound structure video games and animation, as well as the animation within video games, and explore core topics of nostalgia, adaptation, gender, and sexuality. Offering fresh insights into the aesthetic interplay of animation, video games, and sound, this volume provides a gateway into new areas of study that will be of interest to scholars and students across musicology, animation studies, game studies, and media studies more broadly.

You vs You Todd Cahill, 2019-02-19 The greatest battles we face are with ourselves. In *You vs You*, author Todd Cahill starts with a simple premise: As people strive for any improvement in their lives, whether it's more income, a better relationship, a promotion, a bigger business, or a better body, the most important battles they will face are against themselves. People invite problems into their lives through poor choices, apathy, indecision, arrogance, anxiety, selfishness, and other traits they would rather not discuss but must be addressed. In this valuable book, Cahill shares what he has learned about these battles that either keep people from success and significance or usher them to victory. As a life coach and leadership trainer, he has taught thousands of people these lessons, and many of them are now experiencing a level of personal achievement, relational abundance, and financial freedom they never thought possible. People often self-sabotage if they're not mindful, wise, and willing. Cahill reinforces the idea that readers can choose today to fight against who they once were or are and become who they are made to be. *You vs You* is about that choice and the challenging, rewarding quest that ensues.

A Hero in All of Us? Stephen Clouse,Aaron Kushner,2024-08-26 Is heroism possible for everyone Should it be What kinds of stories do we tell when we talk about heroes and what do these stories reveal about how we view ourselves This book takes up these questions and more by reflecting on twenty first century American television shows Among the shows examined are Only Murders in the Building Game of Thrones The Good Lord Bird The Boys and Severance What we find is an entertainment landscape unsure about what a hero is or even what qualifies as heroic In a nation uncertain about heroism we see a dramatic rise in the popularity of the anti hero and even in worlds without heroes This fragmented variety highlights how the American political mind is similarly fragmented in what it believes are its highest aspirations and its deepest anxieties It is this fragmentation that may help us understand why twenty first century entertainment has elevated the heroic to the supernatural while simultaneously democratizing heroism to the point where anyone may become one A Hero in All of Us Heroism and American Political Thought as Seen on TV explores this multifaceted landscape to better understand how Americans view their heroes and themselves *Parents* ,1988

 W. Nikdel,2025-09-18 Distribution Evolution On Demand and the Relocation of Specialized Film looks beyond the rhetoric
 and beneath the gleaming surfaces of on demand to reveal a more complex picture than the narrative of disruption Welcome
 to the age of on demand This is a world replete with choice a world where consumers dictate the terms of their viewing
 experience choosing what to watch when and how a world devoid of monopoly where the niche and undiscovered stand
 shoulder to shoulder with the rich and the powerful These stories of disruption have come to shape the popular perception of
 on demand but does this vision paint an accurate portrait of today s streaming landscape Distribution Evolution assesses
 whether digital distribution is the democratising force we were promised Does on demand disrupt and displace the
 monopolistic practices and patterns that have long curtailed the wider reach of specialised film Or does this vision of
 disruption resemble little more than a fantasy crafted by gifted storytellers and cunning marketers To answer these
 questions Distribution Evolution looks to the past to form a picture of the present Whether it be the emergence of new
 practices or the persistence of old ones the book reveals how a complex interplay between past and present is shaping the
 digital future The resulting work provides a new framework through which to understand the on demand era as a process of

Chowdhury,2024-03-23 The book goes beyond the usual understanding of money physically electronically or virtually expressed in term of monetary units like dollars pounds gold coins or bitcoins and discusses how money is best conceptualised as the ability of a person party to obtain goods and services from another person party This ability may originate from the access of a person party to money in usual sense e g dollars pounds but also via force social norms mutual negotiation altruism trust or due to human biological characteristics As the ability to obtain goods and services from others depends on the context what functions as money in a time and place may not function as money in another time and place as such money has no universal type or representation The book explains inflation as the increased need to acquire money that is the need to employ more physical and mental labour to create the ability to obtain a wide range of goods and services This book provides an explanation of the post covid price hike and the cost of living crisis by taking this new theory into consideration which will be of interest to academics researchers policy makers and students studying finance monetary economics and inflation Digital Transformation and Innovation in Emerging Markets Albakri, Mohammed,2024-10-29
