Hunt,2013-07-04 This latest work from an author known for her contributions to the new cultural history is a daring multidisciplinary investigation of the imaginative foundations of modern politics Hunt uses the term Family Romance coined by Freud to describe the fantasy of being freed from one s family and belonging to one of higher social standing in a broader sense to describe the images of the familial order that structured the collective political unconscious In a wide ranging account that uses novels engravings paintings speeches newspaper editorials pornographic writing and revolutionary legislation about the family Hunt shows that the politics of the French Revolution were experienced through the network of the family romance *The Noun Phrase in Romance and Germanic* Petra Sleeman,Harry Perridon,2011-02-16 One of the

recurrent questions in historical linguistics is to what extent languages can borrow grammar from other languages It seems for instance hardly likely that each average European language developed a definite article all by itself without any influence from neighbouring languages It is on the other hand by no means clear what exactly was borrowed since the way in which definiteness is expressed differs greatly among the various Germanic and Romance languages and dialects One of the main aims of this volume is to shed some light on the question of what is similar and what is different in the structure of the noun phrase of the various Romance and Germanic languages and dialects and what causes this similarity or difference The

European and comparative linguistics **Parametric Variation** Theresa Biberauer, Anders Holmberg, Ian Roberts, Michelle Sheehan, 2009-12-10 Parametric variation in linguistic theory refers to the systematic grammatical variation permitted by the human language faculty Although still widely assumed the parametric theory of variation has in recent years been subject to re evaluation and critique The Null Subject Parameter which determines among other things whether or not a language allows the suppression of subject pronouns is one of the best known and most widely discussed examples of a parameter Nevertheless its status in current syntactic theory is highly controversial This book is a defence of the parametric approach to linguistic variation set within the framework of the Minimalist Program It discusses syntactic variation in the light of recent developments in linguistic theory focusing on issues such as the formal nature of minimalist parameters the typology of null subject language systems and the way in which parametric choices can be seen to underlie the synchronic and diachronic patterns observed in natural languages **Contemporary Research in Romance Linguistics** Jon Amastae, 1995-01-01 This volume contains 23 papers selected from those presented at the 22nd Linguistic Symposium on Romance Languages The papers address issues in phonology morphology syntax semantics from contemporary theoretical perspectives In addition in keeping with the symposium s US Mexico location and commemoration of the twin quincentenaries of Columbus first voyage and the publication of Nebrija s grammar several papers focus on the history of linguistic theory language contact variation and change *Focus and Background in Romance Languages* Andreas Dufter, Daniel Jacob, 2009-06-18 Focus background structure has taken center stage in much current theorizing about sentence prosody syntax and semantics However both the inventory of focus expressions found cross linguistically and the interpretive consequences associated with each of these continue to be insufficiently described This volume aims at providing new observations on the availability and the use of focus markings in Romance languages In doing so it documents the plurality of research on focus in Spanish Portuguese French Italian and Romanian Topics covered include constituent fronting and clefting the position of subjects and focus particles clitic doubling of objects and information packaging in complex sentences In addition some contributions explore focus background structure from acquisitional and diachronic angles while others adopt a comparative perspective studying differences between individual Romance and Germanic languages Therefore this volume is of interest to a broad audience within linguistics including syntacticians semanticists and historical linguists Romance Objects Giuliana Fiorentino, 2011-09-08 The volume brings together the papers read at the international conference on Romance Objects organized by the Linguistics Department of the Roma Tre University It is characterized by a striking uniformity of approach which is functional and of methodology The various case studies regarding the object focus on the syntax semantics and syntax pragmatics interfaces The common denominator of the ten enquiries is the identification of the object category the DO in particular in Romance languages at the same time some of the contributors relate the specific topic to more general questions of linguistic typology Some of the essays are based on the analysis of data

from a corpus and present a diachronic picture of the evolution of the specific topic investigated Thus this volume is addressed not only to scholars interested in the Romance languages but also all those who study the object category in a cross linguistic perspective Michela Cennamo In transitivity and object marking some current issues *Heraldry in History, Poetry, and Romance* Ellen J. documented diachronic variation exhibited by the Romance family Adam Ledgeway reviews the accounts and explanations that have been proposed within competing theoretical frameworks and considers how far traditional ideas should be reinterpreted in light of recent theoretical developments His wide ranging account shows that the transition from Latin to Romance is not only of great intrinsic interest but both provides a means of challenging linguistic orthodoxies and presents opportunities to shape new perspectives on language change structure and variation **The Rhaeto-Romance Languages** Paola Beninca, John Haiman, 2005-12-20 Chapter Introduction chapter 1 Phonology chapter 2 Morphology chapter 3 Lexicon chapter 4 Syntax A Different Three Rs for Education ,2006-01-01 This book of twelve essays applies the holistic theories of process philosophy to the educational challenges that teachers face in today's complexly changing world Topics range from staff development to spirituality exploring issues of student and teacher motivation developmental stages of learning imaginative thinking and writing nourishing relationships moral and environmental education and the development of hospitable learning environments **The Romance Languages** Martin Harris, Nigel Vincent, 2003-12-16 Available again this book discusses nine Romance languages in context of their common Latin origins and then in individual studies The final chapter is devoted to Romance based Creole languages a genuine innovation in a work of this kind **Manual of Grammatical Interfaces in Romance** Susann Fischer, Christoph Gabriel, 2016-09-12 Different components of grammar interact in non trivial ways It has been under debate what the actual range of interaction is and how we can most appropriately represent this in grammatical theory The volume provides a general overview of various topics in the linguistics of Romance languages by examining them through the interaction of grammatical components and functions as a state of the art report but at the same time as a manual of Romance languages *Subject Inversion in Romance and the Theory of Universal Grammar* Aafke Hulk, Jean-Yves Pollock, 2001 The Romance Languages document remarkable variations in subject word order in different constructions and have various restrictions in their occurrence No consensus has emerged on what the parameters are for such variations This volume does not attempt to create a consensus but tries to represent and bring into dialogue the different sides of the debate **Subject Inversion in Romance and the Theory of Universal Grammar** Aafke Hulk Professor of French Linguistics University of Amsterdam, Jean-Yves Pollock Professor of English Linguistics Universite de Picardie a Amiens, 2001-08-27 The Romance Languages document remarkable variations in subject word order in different constructions and have various restrictions in their occurrence No consensus has emerged on what the parameters are for such variations This volume does not attempt to create a consensus but tries to represent and bring into dialogue the different sides of the debate *Romance* Dana Percec, 2012-03-15 Romance The History of a Genre is a collection of essays devoted to the highly popular and no less controversial genre of romance A genre often disregarded for its stereotypical language shallow characters and predictable plots dismissed as women's fiction accused of conventionalism romance is a genre which after ups and downs in its millennial history is now holding a leading position on the international
