The Form of American Romance Edgar Dryden, 2019-12-01 Originally published in 1988 Edgar Dryden challenges recent criticism that has tended to discredit or at least devalue the importance of romance as a thematic and generic category of American fiction In *The Form of American Romance* he examines its evolution and meaning through readings of five exemplary texts Hawthorne's *Marble Faun* Melville's *Pierre* James's *Portrait of a Lady* Faulkner's *Absalom Absalom* and Barth's *Letters* Each of these novels treats the problems of reading and writing in a self-referential way that reflects on the questions they dramatize and Dryden has chosen each with the others in mind Taken together they chart a line of development with representative examples of what literary history calls romanticism realism modernism and postmodernism and thus they suggest a certain story about the continuity of the American novel
