This ground-breaking book is the first to describe in detail how teachers supported by university educators and education advisers might plan and implement innovative ideas based on sound theoretical foundations. Focusing on the teaching and learning of intercultural communicative competence in foreign language classrooms in the USA, the authors describe a collaborative project in which graduate students and teachers planned, implemented, and reported on units which integrated intercultural competence in a systematic way in classrooms ranging from elementary to university level. The authors are clear and honest about what worked and what didn't both in their classrooms and during the process of collaboration. This book will be required reading for both scholars and teachers interested in applying academic theory in the classroom and in the teaching of intercultural competence.

Radio's America Bruce Lenthall, 2008-11-15 Orson Welles's greatest breakthrough into the popular consciousness occurred in 1938 three years before Citizen Kane when his War of the Worlds radio broadcast succeeded so spectacularly that terrified listeners believed they were hearing a genuine report of an alien invasion a landmark in the history of radio's powerful relationship with its audience In Radio's America Bruce Lenthall documents the enormous impact radio had on the lives of Depression era Americans and charts the formative years of our modern mass culture Many Americans became alienated from their government and economy in the twentieth century and Lenthall explains that radio's appeal came from its capability to personalize an increasingly impersonal public arena His depictions of such figures as proto Fascist Charles Coughlin and medical quack John Brinkley offer penetrating insight into radio's use as a persuasive tool and Lenthall's book is unique in its exploration of how ordinary Americans made radio a part of their lives Television inherited radio's cultural role and as the voting tallies for American Idol attest broadcasting continues to occupy a powerfully intimate place in American life Radio's America reveals how the connections between power and mass media began Every Third Woman in America: How Legal Abortion Transformed Our Nation David A.
