Searches Vauhini Vara, 2025-04-08 From the author of *The Immortal King Rao* finalist for the Pulitzer Prize a personal exploration of how technology companies have both fulfilled and
 exploited the human desire for understanding and connection A MOST ANTICIPATED BOOK The New York Times Esquire
 Harper's Bazaar Foreign Policy Bustle Alta Ms Magazine Cultured Denizen Lit Hub Book Riot and Electric Literature When it
 was released to the public in November 2022 ChatGPT awakened the world to a secretive project teaching AI powered
 machines to write Its creators had a sweeping ambition to build machines that could not only communicate but could do all
 kinds of other activities better than humans ever could But was this goal actually achievable And if reached would it lead to
 our liberation or our subjugation Vauhini Vara an award winning tech journalist and editor had long been grappling with

these questions In 2021 she asked a predecessor of ChatGPT to write about her sister's death resulting in an essay that was both more moving and more disturbing than she could have imagined It quickly went viral The experience revealing both the power and the danger of corporate owned technologies forced Vara to interrogate how these technologies have influenced her understanding of her self and the world around her from discovering online chat rooms as a preteen to using social media as the Wall Street Journal's first Facebook reporter to asking ChatGPT for writing advice while compelling her to add to the trove of human created material exploited for corporations financial gain Interspersed throughout this investigation are her own Google searches Amazon reviews and the other raw material of internet life including the viral AI experiment that started it all Searches illuminates how technological capitalism is both shaping and exploiting human existence while proposing that by harnessing the collective creativity that makes humans unique we might imagine a freer more empowered relationship with our machines and ultimately with one another

Book Wars John B. Thompson, 2021-03-04 This book tells the story of the turbulent decades when the book publishing industry collided with the great technological revolution of our time From the surge of ebooks to the self publishing explosion and the growing popularity of audiobooks Book Wars provides a comprehensive and fine grained account of technological disruption in one of our most important and successful creative industries Like other sectors publishing has been thrown into disarray by the digital revolution The foundation on which this industry had been based for 500 years the packaging and sale of words and images in the form of printed books was called into question by a technological revolution that enabled symbolic content to be stored manipulated and transmitted quickly and cheaply Publishers and retailers found themselves facing a proliferation of new players who were offering new products and services and challenging some of their most deeply held principles and beliefs The old industry was suddenly thrust into the limelight as bitter conflicts erupted between publishers and new entrants including powerful new tech giants who saw the world in very different ways The book wars had begun While ebooks were at the heart of many of these conflicts Thompson argues that the most fundamental consequences lie elsewhere The print on paper book has proven to be a remarkably resilient cultural form but the digital revolution has transformed the industry in other ways spawning new players which now wield unprecedented power and giving rise to an array of new publishing forms Most important of all it has transformed the broader information and communication environment creating new challenges and new opportunities for publishers as they seek to redefine their role in the digital age This unrivalled account of the book publishing industry as it faces its greatest challenge since Gutenberg will be essential reading for anyone interested in books and their future
