and with America's unwitting help China has built its own film industry into an essential arm of its plan to export its national agenda to the rest of the world. The competition between these two movie businesses is a Cold War for this century, a clash that determines whether democratic or authoritarian values will be broadcast most powerfully around the world. Red Carpet is packed with memorable characters who have knowingly or otherwise played key roles in this tangled industry web, not only A-list stars like Matt Damon, Angelina Jolie, and Richard Gere, but also eccentric Chinese billionaires, expatriate filmmakers, and starlets who disappear from public life without explanation or trace. Schwartzel combines original reporting, political history, and show biz intrigue in an exhilarating tour of global entertainment from propaganda film sets in Beijing to the boardrooms of Hollywood studios to the living rooms in Kenya where families decide whether to watch an American or Chinese movie. Alarming, occasionally absurd, and wildly entertaining, Red Carpet will not only alter the way we watch movies but also offer essential new perspective on the power struggle of this century.

Theoretical Perspectives on Fan Scholarship in the Franchise Era Sophie Charlotte Goor, 2025-10-01 This book is a practical and theoretical guide for anyone interested in researching popular media, popular culture, audiences, and fans. Unlike most books, Theoretical Perspectives does not talk about media texts or fan communities. Instead, it critically explores the workings of fan scholarship research on popular media and fan culture done by scholars who are often fans themselves, showing and challenging how we have constructed certain ideas about what fans and fandom are and how to study them as a fan. Analysing scholarship on two transmedia franchises, The Marvel Cinematic Universe and the BBC's Sherlock, with the help of extensive international participant discussion, Theoretical Perspectives explores and unravels established popular theoretical frameworks and value systems on taste and legitimacy, subversion, filtering, and safe spaces, neoliberal capitalist realism, and fannish dispositions to offer new approaches for anyone who wants to create a better understanding of fans, fandom, and themselves.

Harry Potter and the Myth of Millennials Priscilla Hobbs, 2022-05-16 The publication of the Harry Potter series in the United States coincided with the coming of age of its main target audience, the millennial generation. Harry Potter and the Myth of Millennials: Identity, Reception, and Politics takes an interdisciplinary view of Harry Potter as a series and a phenomenon to uncover how the appeal of Harry became a lifestyle, a moral compass, and a guiding light in an era fraught with turbulence and disharmony. As a new phenomenon at the time, Harry Potter provided comfort through the heroism of the main characters, showing that perseverance and constant vigilance to quote one of the professors could overcome the darkest of times. Hobbs argues that Harry Potter prepared an entire generation for the chaotic present marked by the 2016 Election and 2020 Pandemic by shaping the political attitudes of its readers, many of whom were developing their political identities alongside Harry. Her analysis focuses on both the novels themselves and the ways in which fans connected globally through the Internet to discuss the books, commiserate about the events swirling around them, and answer calls to action through Harry Potter-inspired activism. In short, Harry Potter and the Myth of Millennials examines how Harry Potter became a generation's

Affect and Emotion in Multi-Religious Secular Societies

Christian von Scheve, Anna Berg, Meike Haken, Nur Ural, 2019-09-16 Emotions have moved center stage in many contemporary debates over religious diversity and multicultural recognition As in other contested fields emotions are often one sidedly discussed as quintessentially subjective and individual phenomena neglecting their social and cultural constitution Moreover emotionality in these debates is frequently attributed to the religious subject alone disregarding the affective anatomy of the secular This volume addresses these shortcomings bringing into conversation a variety of disciplinary perspectives on religious and secular affect and emotion The volume emphasizes two analytical perspectives on the one hand chapters take an immanent perspective focusing on subjective feelings and emotions in relation to the religious and the secular On the other hand chapters take a relational perspective looking at the role of affect and emotion in how the religious and the secular constitute one another These perspectives cut across the three main parts of the volume the first one addressing historical intertwinements of religion and emotion the second part emphasizing affects emotions and religiosity and the third part looking at specific sensibilities of the secular The thirteen chapters provide a well balanced composition of theoretical methodological and empirical approaches to these areas of inquiry discussing both historical and contemporary cases
