It's the Student, Not the College Kristin M. White, 2015-04-07 The future is in your hands not Harvard's TO All students wondering Can I get into my dream college CC All parents wondering Can we afford it FROM Educational consultant Kristin M White MEMO COLLEGE RANKINGS DON'T MATTER This claim might sound crazy but it's true Research shows that where you go to school makes little difference to future financial success or quality of life personal qualities such as ambition perseverance and a sense of purpose are all more important Kristin M White has helped hundreds of parents and students look beyond the dream school hype and focus on what's most important Now in It's the Student Not the College she shows how to avoid unrepayable debt and set yourself up to grow excel and enjoy yourself at any school Instead of obsessing over GPA cutoffs and SAT scores students will learn how to build a personal Success Profile by adopting the traits that help stellar students make the grade in school and life Plus Why what you do in school counts more than where you go 14 surefire ways to develop your Success Profile as a student and beyond Criteria to consider when choosing a college How to find a good fit for your family's finances And tips for graduating career ready and landing a great first job Expensive elite colleges have too much sway over the minds and bank accounts of students and parents It's the Student Not the College breaks that stranglehold and reveals the real secrets of success *Knowledge for Sale* Lawrence Busch, 2023-09-19 How free market fundamentalists have shifted the focus of higher education to competition metrics consumer demand and return on investment and why we should change this A new philosophy of higher education has taken hold in institutions around the world Its supporters disavow the pursuit of knowledge for its own sake and argue that the only knowledge worth pursuing is that with more or less immediate market value Every other kind of learning is downgraded its budget cut In *Knowledge for Sale* Lawrence Busch challenges this market driven approach The rationale for the current thinking Busch explains comes from neoliberal economics which calls for reorganizing society around the needs of the market The market influenced changes to higher education include shifting the cost of education from the state to the individual turning education from a public good to a private good subject to consumer demand redefining higher education as a search for the highest paying job and turning scholarly research into a competition based on metrics including number of citations and value of grants Students administrators and scholars have begun to think of themselves as economic actors rather than seekers of knowledge Arguing for active resistance to this takeover Busch urges us to burst the neoliberal bubble to imagine a future not dictated by the market a future in which there is a more educated citizenry and in which the old dichotomies market and state nature and culture and equality and liberty break down In this future universities value learning and not training scholarship grapples with society's most pressing problems rather than quick fixes for corporate interests and democracy is enriched by its educated and engaged citizens *Infantry*, 1985 **An Encyclopaedia of Cottage, Farm and Villa Architecture and Furniture** Loudon, 1833 **The Architect and Contract Reporter**, 1894 *Billboard*, 1971-03-06 In
