Digital Methods Richard Rogers, 2013-05-10 A proposal to repurpose Web native techniques for use in social and

cultural scholarly research In *Digital Methods* Richard Rogers proposes a methodological outlook for social and cultural scholarly research on the Web that seeks to move Internet research beyond the study of online culture It is not a toolkit for Internet research or operating instructions for a software package it deals with broader questions How can we study social media to learn something about society rather than about social media use Rogers proposes repurposing Web native techniques for research into cultural change and societal conditions We can learn to reapply such methods of the medium as crawling and crowd sourcing PageRank and similar algorithms tag clouds and other visualizations we can learn how they handle hits likes tags date stamps and other Web native objects By thinking along with devices and the objects they handle digital research methods can follow the evolving methods of the medium Rogers uses this new methodological outlook to examine such topics as the findings of inquiries into 9 11 search results the recognition of climate change skeptics by climate change related Web sites and the censorship of the Iranian Web With *Digital Methods* Rogers introduces a new vision and method for Internet research and at the same time applies them to the Web s objects of study from tiny particles hyperlinks to large masses social media

A Return to the Object Susanne KÜchler,Timothy Carroll,2020-11-26 This book draws on the work of anthropologist Alfred Gell to reinstate the importance of the object in art and society Rather than presenting art as a passive recipient of the artist s intention and the audience s critique the authors consider it in the social environment of its production and reception *A Return to the Object* introduces the historical and theoretical framework out of which an anthropology of art has emerged and examines the conditions under which it has renewed interest It also explores what art does as a social and cultural phenomenon and how it can impact alternative ways of organising and managing knowledge Making use of ethnography museological practice the intellectual history of the arts and sciences material culture studies and intangible heritage the authors present a case for the re orientation of current conversations surrounding the anthropology of art and social theory This text will be of key interest to students and scholars in the social and historical sciences arts and humanities and cognitive sciences
