Teaching and Learning Online Franklin S. Allaire, Jennifer E. Killham, 2023-01-01 Science is unique among the disciplines since it is inherently hands on. However, the hands on nature of science instruction also makes it uniquely challenging when teaching in virtual environments. How do we as science teachers deliver high quality experiences to secondary students in an online environment that leads to age grade level appropriate science content knowledge and literacy but also collaborative experiences in the inquiry process and the nature of science? The expansion of online environments for education poses logistical and pedagogical challenges for early childhood and elementary science teachers and early learners. Despite digital media becoming more available and ubiquitous and increases in online spaces for teaching and learning. Killham et al 2014 Wong et al 2018 PreK 12 teachers consistently report feeling underprepared or overwhelmed by online learning environments. Molnar et al 2021 Seaman et al 2018 This is coupled with persistent challenges related to elementary teachers lack of confidence and low science teaching self efficacy. Brigido Borrachero Bermejo Gunning Duran Duran 2004 Ideal for undergraduate teacher candidates graduate students teacher educators classroom teachers parents and administrators this book addresses why and how teachers use online environments to teach science content and work with elementary students through a research based foundation.

Ideas Don't Die. Companies Do. Hari Abburi, 2025-07-04 Rethink ideas as the real value to the future of your business in a technology world where knowledge is increasingly a commodity. In *Ideas Don't Die* Companies Do renowned voice on disruptive agility and executive Hari Abburi delivers an insightful framework for leaders to future proof their companies by creating an idea obsessed enterprise. In the book you'll learn why ideas are more important than customers to disrupt the industry and marketplace. The author explains how to distinguish between ideas that are truly original and those that require strategic execution to differentiate them from other choices on the market. He offers key insights into how to glean information from other companies who have worked with the idea and how to apply that knowledge to your firm's own idea. Inside the book Explanations of the idea moat that creates exponential value at one company as opposed to another that uses similar ideas. Compelling answers to questions about idea timing and why ideas that failed a few years ago can be successful today. How to shift your company's focus from thinking customers to thinking ideas. Perfect for managers executives entrepreneurs founders and other business leaders. *Ideas Don't Die* Companies Do will also benefit product team leaders and other innovators with a desire to bring new and exciting ideas to the market.

That Will Never Work Marc Randolph, 2019-09-17 In the tradition of Phil Knight's *Shoe Dog* comes the incredible untold story of how Netflix went from concept to company all revealed by co-founder and first CEO Marc Randolph. Once upon a time brick and mortar video stores were king. Late fees were ubiquitous. Video streaming unheard of and widespread DVD adoption seemed about as imminent as flying cars. Indeed these were the widely accepted laws of the land in 1997 when Marc Randolph had an idea. It was a simple thought leveraging the internet to rent movies and was just one of many more and far

worse proposals like personalized baseball bats and a shampoo delivery service that Randolph would pitch to his business partner Reed Hastings on their commute to work each morning But Hastings was intrigued and the pair with Hastings as the primary investor and Randolph as the CEO founded a company Now with over 150 million subscribers Netflix's triumph feels inevitable but the twenty first century's most disruptive start up began with few believers and calamity at every turn From having to pitch his own mother on being an early investor to the motel conference room that served as a first office to server crashes on launch day to the now infamous meeting when Netflix brass pitched Blockbuster to acquire them Marc Randolph's transformational journey exemplifies how anyone with grit gut instincts and determination can change the world even with an idea that many think will never work What emerges though isn't just the inside story of one of the world's most iconic companies Full of counter intuitive concepts and written in binge worthy prose it answers some of our most fundamental questions about taking that leap of faith in business or in life How do you begin How do you weather disappointment and failure How do you deal with success What even is success From idea generation to team building to knowing when it's time to let go That Will Never Work is not only the ultimate follow your dreams parable but also one of the most dramatic and insightful entrepreneurial stories of our time **The Future Starts Here** John Higgs,2019-05-16 When we look into the future we imagine economic collapse environmental disaster and the zombie apocalypse But what if we are wrong John Higgs takes us on a journey past the technological hype and headlines to discover why we shouldn't trust the predictions of science fiction why nature is not as helpless as we assume and why purpose can never be automated In the process we will come to a better understanding of what lies ahead and how despite everything we can build a better future [The Wall Street Journal](#) ,2004 **Business Week** ,2005 **10 Fun Ways to Teach STEM to Kids** Stem School,2025-04-06 What if learning science technology engineering and math felt like playtime With these 10 exciting STEM activities you can spark curiosity creativity and problem solving skills in your child without boring lectures or complicated setups This book is packed with hands on experiments engineering challenges and interactive games that make learning engaging educational and fun From building simple machines to exploring the wonders of chemistry these activities are designed to be easy to follow mess free and perfect for kids of all ages Whether you're a parent teacher or homeschooler you'll find step by step guidance to introduce STEM concepts in a way kids will love Parents and educators rave about how these activities boost critical thinking encourage curiosity and inspire young minds to explore the world of science and technology Get ready to watch your child develop a love for STEM through play and discovery Grab your copy today and start the fun filled learning journey *The Advocate* ,2004-08-17 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States
