The Archives Aa. Vv., 2015-04-21 T00:00:00+02:00 The digital age has witnessed the development of a new kind of archive immaterial living and moving largely user generated and conceived for managing a wide variety of audio visual materials besides traditional films and videos The first part of this anthology investigates the ways in which media forms like web documentaries video art and digital art web series amateur productions and also mobile films can be stored and preserved within the new digital repositories The second part focuses on archival and preservation practices of the video game This approach understands the archive not simply as a memory box but as a fully contemporary practice that locates new media objects in the present and

acknowledges their changing cultural and social configurations The democratic often immaterial living mobile nature of contemporary archives forces us to question whether or not the traditional notion of the archive still has a heuristic value Or if it would be perhaps better to reject any conventional idea of archive and embrace the notion of an archive *Silicon Heartland* Rebecca A. The New Technology Elite Vinnie Mirchandani, 2012-02-28. How to guidance for optimizing incumbent technologies to deliver a better product and gain competitive advantage. Their zip codes are far from Silicon Valley. Their SIC codes show retail, automobile, or banking. But industry after industry is waking up to the opportunity of smart products and services for their increasingly tech-savvy customers. Traditionally, technology buyers are learning to embed technology in their products and become technology vendors. In turn, if you analyze Apple, Google, Amazon, Facebook, Twitter, and eBay, you marvel at their data centers, retail stores, application ecosystems, global supply chains, design shops. They are considered consumer tech, but have better technology at larger scale than most enterprises. The old delineation of technology buyer and vendor is obsolete. There is a new definition for the technology elite, and you find them across industries and geographies. The 17 case studies and 4 guest columns spread through **The New Technology Elite** bring out the elite attributes in detail. Every organization will increasingly be benchmarked against these elite, and soon will be competing against them. Contrasts the productivity that Apple, Google, and others have demonstrated in the last decade to that of the average enterprise technology group. Reveals how to leverage what companies have learned from Google, Apple, Amazon.com, and Facebook to your company's advantage. Designed for business practitioners, CEOs, CFOs, CIOs, technology vendors, venture capitalists, IT consultants, marketing executives, and policy makers. Other titles by Vinnie Mirchandani: **The New Polymath**, **Profiles in Compound Technology Innovations**. If you're looking to encourage technology innovation, look no further. **The New Technology Elite** provides the building blocks your company needs to become innovative through incumbent technologies.
