Work From Home: A Simple Method for Finding Online Work With No Jobs (A Beginner's Guide to Finding Remote Jobs, Freelancing, and Making Money Online) Kevin Milliken, 101-01-01 This book is your invitation to that life. It's filled with heartfelt guidance showing you how real people are building incredible financial freedom through the power of the internet. We'll explore exciting paths like sharing products you love through affiliate marketing and earning for it. Creating your own unique designs with print on demand without ever touching inventory. You will learn how to start a virtual assistant business, writing business, online store, cottage food business, vending machine business, personal organizer business, online course business. The idea of structuring your life around passive income is real. I currently have four streams of passive or semi-passive income. I'm working on the fifth and would never again consider trading my time for money. But it's not as easy as some books suggest. As with anything in life, if you want to create passive income, you will need to understand it, plan for it, and then work to make it a reality. I have done just that and have no need to punch a clock or answer to anyone else. Because most of my income is passive, I don't have to exert a lot of time or effort to earn a great living. Working Remotely Molly Virello, 2022-05-09 In March of 2020, the world workforce moved to work remotely, challenging the nature of what librarians accomplish while not being in their buildings and how libraries serve communities with their doors closed. While the initial move to remote work was forced, voices emerged that questioned why librarians couldn't work remotely for extended periods of time as part of their regular jobs. Librarians are uniquely positioned to move themselves to remote work while also maintaining connections to their patron base and their colleagues but where to start. Stepping outside the traditional library space, librarians can carve out a space to work remotely while still retaining the ability to reach our patrons. Quality programming paves the way for libraries to share information, promote resources, and even lead change in their communities. With times changing and our profession adapting so quickly, this practical how-to guide will help librarians set up an office space, set a routine, and adapt, plan, create, implement, manage, and evaluate their programs and services to the best of their ability in order to unleash their library's potential to engage and wow their patrons and communities. With worksheets and templates, anecdotes about what works easily and what might prove challenging, this book is ideal for today's librarian. Starting A Business From Home Kimmy Ryan, 2014-03-16 Starting A Business From Home offers tips and insights into what types of businesses can succeed at home.
